PREFACE TO THE FIRST EDITION.

THESE Volumes contain all the information I have been able to collect concerning the British Enactments in force in the Native States in India.¹

2. The term "British Enactments," as used in these volumes, includes—

- (I) the Enactments made by the British Legislature in exercise of the general jurisdiction which it possesses over its subjects and servants in all Native States, and
- (II) the Enactments made by or under the authority of the British Indian Executive Government in exercise of the special jurisdiction which it has acquired; usually over all persons, in certain Native States or places therein.

3. ²The distinction between these two classes of Enactments has been observed in classifying the British Enactments in force in the Native States dealt with in these volumes, the Enactments in force in each local area having been placed under separate heads according as they belong to one or other of these classes. Enactments which purport to be solely made under the authority of the Legislature, or which appear to be limited to the classes of persons with which the Legislature can deal, have been arranged under one head and styled "British-Indian Enactments"; whilst Enactments which purport to be made, in whole or in part, under the special authority of the Executive Government above described, or which do not appear to be limited to the classes of

¹ *i.e.*, the territories of any Native Prince or Chief under the suzerainty of Her Majesty exercised through the Governor-General of India, or through any Governor or other officer subordinate to the Governor-General of India—*see* 52 and 53 Vict., cap. 63, s. 18 (5).

² There are certain exceptions to the general rules laid down in this paragraph, which are noticed in the body of the Lists.

persons with which the Legislature can deal, have been arranged under a different head, having as its title the name of the particular place for which the Enactments have been made with the word "British" prefixed. Broadly speaking, the "British-Indian Enactments" are personal laws applicable only to British subjects or servants, whilst the other Enactments are territorial laws applicable to all persons in the particular places to which they respectively refer.

4. The minor classification under each of these heads is identical, the Enactments being arranged, as far as possible, in separate lists, as they are of the nature of—

- (1) Principal Enactments, that is, Enactments made under the immediate authority of the Legislature or the Executive Government, consisting of—

A.—Enactments of the Legislature—

- (a) Statutes,
- (b) Acts of the Governor-General in Council¹;

B.—Enactments of the Executive Government—

- (a) Enactments of the British-Indian Legislatures applied,
- (b) Special Laws; or

- (2) Subordinate Enactments, that is, Enactments (Rules and Orders) made under authority conferred in this behalf by Principal Enactments.

5. "Special Laws" are new laws made by the Executive Government for places in which it has acquired special jurisdiction, while "Enactments of the British-Indian Legislatures

¹Strictly speaking, *all* the Enactments of the Legislatures established in this country are Subordinate Enactments, inasmuch as the Indian Legislatures derive their authority solely from Parliamentary Enactments; but for the purposes of these Lists, Acts of the Governor-General in Council are classified as on the same footing with Statutes.

applied" are, as their title indicates, existing British-Indian Enactments which have, by order of the Executive Government, been adopted, usually with certain modifications, as laws in such places. Though there is no material distinction between these two kinds of Enactments, it has been found convenient to arrange them in separate groups in these volumes.

6. A general classification of the British Enactments which may be made for the Native States in India, and a detailed classification of the various British Enactments actually in force in the Native States dealt with in each volume, which have been prepared in accordance with the above remarks, will be found in Statements Nos. I and II, prefixed to these volumes (pages xi and xii).

7. The Enactments which the various Native States may have made for their respective territories are beyond the scope of this work.

8. For the convenience of local officers, each volume contains (*see* Part I) the British Enactments in force generally in all Native States in India, as well as the Enactments in force locally in the particular Native States with which it deals.

9. Numerous references to Aitchison's Treaties have been inserted, which will, it is hoped, add to the usefulness of these Lists. The revised edition of 1876 is the one referred to.

10. A short alphabetical index of names of places has been appended for convenience of reference.

11. In compiling the volumes—

- (a) Rules and Orders of a temporary nature or conferring powers on persons by name have, as a rule, been omitted ; and
- (b) Special Laws and Subordinate Enactments, which are not to be found in the Codes published by the Legislative Department, have, as a rule, been set out *in extenso*.

12. Mr. G. R. Ridge of the Legislative Department Office has assisted me in the preparation of these Lists, and Mr. F. G.

Wigley, the Officiating Under Secretary, has kindly undertaken to supervise the passing of the final proof through the Press and the insertion of such Enactments as may be issued after this date.

13. Lastly, it must be stated that these volumes are not authoritative, and that the Government of India is in no way responsible for their contents. They have been compiled by me from the Official Gazettes, supplemented by local information obtained through the Foreign Department. Though I have made them as complete and accurate as was possible, having regard to the materials at my disposal and the limited time which I have been at liberty to devote to the work, I am fully conscious of their many defects. At the same time I hope that, notwithstanding their imperfections, the volumes will be found to be of some practical value to Political Officers and others desirous of obtaining information concerning the British Enactments in force in the Native States in India.

J. M. MACPHERSON.

SIMLA;

The 27th October 1890.

In his recent valuable work, "The Protected Native States of India," Mr. Lee-Warner states (see page 366) that if the reader "refers to the official Gazettes of the Indian Government he will find many scores of pages devoted annually to the judicial notifications published by the political offices of the Empire. The law relating to the Native States fills thousands of pages." The object of the work now being brought to completion has been to save the labour and trouble involved in referring to the official Gazettes for these Notifications by supplying information in a classified form as to their contents. Though the work only professes to contain lists of the Notifications in question, it will be found on examination that, except in the case of the two first volumes, which do not, as a rule, reproduce the subordinate Enactments, the whole of each Notification referred to in those volumes is set out *in extenso* either in the last column of the

Lists or in the appendices, so that a reference to the Gazettes, even for the purpose of ascertaining the exact words of a Notification, has been rendered unnecessary. Indeed, if used in conjunction with the "Codes" published by the Legislative Department, which contain the Statutes, Acts, and Regulations mentioned in the Lists, these volumes ought to form a fairly complete handbook to the British Enactments now in force in the Native States of India.

The subject of the relations between the British Government and the Native States of India has of late been brought before the public not only in Mr. Lee-Warner's work above mentioned, but also in Mr. Tupper's no less valuable work, "Our Indian Protectorate." In both these volumes these relations have been treated of chiefly from a politico-historical point of view. In his earlier work, entitled "A Collection of Treaties, Engagements, and Sanads relating to India and neighbouring countries," of which a revised edition has recently been published, Sir Charles Aitchison dealt very fully and comprehensively with the same subject, mainly from the standpoint of our contractual relations towards those States. In these and the previous volumes of this work an attempt has been made to approach this subject from what may be described as its legal or jurisdictional aspect, the object being to show the extent to which British-made law applies to those Native States, and, though these volumes are practically little more than compilations of information which is available to any one who chooses to study the Gazettes, they will perhaps help to throw light on what has hitherto been a somewhat confusing branch of the subject.

PREFACE TO THE SECOND EDITION.

IN preparing for publication the second edition of this work one important alteration has been introduced which, it is hoped, will render it more useful for purposes of reference. In the first edition the Enactments were merely summarized and included in the lists, with the exception of certain special ones, which were reproduced *in extenso* in Appendices: in the present edition, however, all Enactments which have been issued by the Government of India have been reproduced *in extenso*, except in so far as they are to be found in the volumes of General Acts of the Governor-General in Council, or in one of the Provincial Codes. In such cases full references are given: and the chronological lists which formed the basis of the first edition are only retained in a simplified form to serve the purposes of a table or index. In its present form it is hoped that the work may be regarded as a not inadequate supplement to the General Acts of the Governor-General in Council and the Provincial Codes.

2. A general nominal index has been added at the end of the sixth Volume (the Western Indian Volume) for facility of reference.

3. Mr. Macpherson, the Secretary to the Government of India in the Legislative Department, who compiled the first edition, has kindly permitted me to consult him in matters regarding the general scheme of the work, and I have to express my obligations to him for his advice. I have also had the assistance of Mr. Ridge of the Legislative Department Office, who has been most useful in helping to prepare the volumes for Press.

PREFACE TO THE THIRD EDITION.

IN this, the third, edition of "British Enactments in force in Native States," the system of arrangement has been altered from that adopted by Mr. (now Sir John) Macpherson in the first edition. States in relation with the Government of India, with the Administered Areas situated in them, have been grouped (Volumes I-III) apart from those in relation with Local Governments (Volume IV), while one Volume (V) is devoted to Railways wherever situated. Again orders under Acts applied and under Local Laws have been separated from the rest of the enactments, and form Volumes II and III in the case of the first group of States, and Part II of Volume IV in the case of the second group, and Part II of Volume V in the case of railways. Lastly, for convenience of reference, orders relating to Courts have been entered under a separate sub-head in each chapter in Volumes I, IV, Part I, and V, Part I. In the Appendices have been collected all orders to which there are constant references in the body of the work, or which it is convenient to group together for purposes of comparison, such as orders relating to the appointment of Justices of the Peace, of Marriage Registrars, and of Registrars of Births and Deaths.

Each Volume states the law as in force on the 19th April 1913.

CHAPTER I.

ADMINISTERED AREAS IN THE HYDERABAD STATE.*

Orders¹ under Acts locally applied.

Court-fees Act, 1870.

No. 80, dated the 22nd November 1899.—The following rules framed by the Judicial Commissioner, Hyderabad Assigned Districts, in accordance with clauses (i) and (ii) respectively of section 20 of the Court-fees Act, 1870 (Act VII of 1870), as applied² to the Hyderabad Assigned Districts, the Hyderabad Residency Bazzars, the Cantonment of Secunderabad, the Hyderabad Contingent Stations of Amangabad, and the railway lands³ in the territories of His Highness the Nizam of Hyderabad having been confirmed by the Resident and sanctioned by the Governor General in Council, are published for general information in supersession of all previous orders on the subject:—

Rules under clause (i), section 20, Act VII of 1870, as to the fees chargeable for serving and executing processes issued by the Court of the Judicial Commissioner and by all other Civil Courts subordinate to that Court.

Rule 1.—The fees noted below shall be charged for serving and executing the several processes against which they are respectively ranged:—

TABLE OF FEES.

SECTION A.—In the Court of the Judicial Commissioner and all Civil Appellate Courts subordinate thereto.

ARTICLE I.—Notice of appeal or other notice to respondents in respect of each respondent to be noticed	PROCESS FEES. RS. A. P.
Provided that in the aggregate for service in any one town or village no larger amount than Rs. 15 shall be leviable	0 0 0

¹ Except where stated to the contrary, the orders in this Chapter apply to all the Administered Areas in the Hyderabad State.

Those relating to Cantonments, which name Secunderabad only but are cited here as applying equally to Amangabad, are covered by notification No. 2694-I B., dated the 7th October 1905, (*Gazette of India*, 1906, Part I, page 745) which directs that "all laws and rules having the force of law, which immediately before the 11th March 1904 were in force in the Cantonment of Secunderabad, exclusive of the area formerly known as the 'Contingent Station' of Bolaram, and have not been expressly rescinded shall, with effect from that date, be deemed to be in force in the Cantonment of Secunderabad, inclusive of the said area, and also in the Cantonment of Amangabad."

Those relating to railways usually qualify the words "the railway lands in the territories of His Highness the Nizam of Hyderabad" by the words "other than the railway lands in Berrar and those referred to in the notifications of the Government of India in the Foreign Department No. 4504-I, dated the 18th November 1891, and No. 3244-I B., dated the 26th August 1897," the latter being the lands in the Hyderabad State occupied by the metre gauge main line of the Madras and Southern Maratha Railway and by the Barsi Light Railway, respectively. As these lands are not Administered Areas in the sense of "areas under the administration of the Resident at Hyderabad" (cf. the preface to Chapter IV, Volume I), those qualifying words are omitted from the notifications reprinted in this Chapter. None of the orders apply to the metre gauge line of the Madras and Southern Maratha Railway or to the Barsi Light Railway, which have been under the administration of the Bombay Government (cf. Volume I, page 206) from the date they were built but where an order anterior to November 1908 (when Berrar was transferred to the administration of the Chief Commissioner of the Central Provinces) applies to railway lands in Berrar, the fact is stated in a footnote.

² See now notification No. 652-I.B., dated the 22nd March 1913. Printed Vol. I p. 247

³ Includes the railway lands in Berrar.

- (a) Any process which may be issued by any Court of its own motion solely for the purpose of taking cognizance of and punishing any act done or words spoken in contempt of its authority.
- (b) Any process issued a second time in consequence of an adjournment made otherwise than at the instance of a party.
- (c) Any copy of a warrant, order or certificate fixed up under sections 264, 274, or 319 of the Code of Civil Procedure, when the fee chargeable under Article 3 or Article 6 of Section B has been paid.
- (d) Any copy of a summons, notice, order, proclamation, or other process fixed up in a Court-house or in the office of a Collector.
- (e) Any notice issued by a District Court under section 322C of the Code of Civil Procedure
- (f) Any order intimating withdrawal of attachment or postponement of sale.
- (g) Any order intimating to a sale officer that permission has been given to a decree holder to bid for or purchase property under section 294 of the Code of Civil Procedure.
- (h) Any copy of a notice of an application under Act VIII of 1890 sent to a Collector, or
- (i) Any order directing an officer in charge of a jail to detain or to release a person committed to his custody.

Rule III.—No process which comes within the operation of Rule I shall be drawn up for service or execution until the fee chargeable under that rule

has been paid. The fee shall be paid in court-fee stamps, which shall be affixed either on the application by which the Court is moved to issue the process, or, if no such application be filed, on the order by which the Court directs the issue or service of the process. If such an application be filed, it must bear the requisite stamps for the fee in addition to such stamps, if any, as are needed for its own validity.

Rule IV.—When a Court sends a process for service or execution to any Court beyond its jurisdiction, it shall endorse on the process a certificate that the fee chargeable under Rule I has been levied, and the process so endorsed will be served or executed free of further charge by the Court to which it is sent.

Rule V.—Fees for processes to be issued by a Court to which a commission is addressed shall be payable at the rates declared by Rule I to be chargeable for serving and executing processes issued by such Court.

Rule VI.—A process issued by any Court in any presidency or province in British India shall be served or executed free of charge by any Court to which it may be sent within the jurisdiction of the Judicial Commissioner, if it be certified on the process that the proper fee has been levied under the rules in force in such presidency or province.

Rule VII.—If for any reason it becomes unnecessary for an officer to proceed to make an attachment in the manner prescribed in section 269, 270, or 274, or delivery of possession of property under section 259, 263, 264, 318, 319, 332, or 335 of the Code of Civil Procedure, any fee paid in respect of his services shall be refunded.

When, in consequence of a reference to arbitration being withdrawn or of an award being made before the expiry of the time fixed under section 508 or section 511 of the Code of Civil Procedure, the peon has not been deputed to attend on the arbitrators, or has attended on them for a shorter time than that for which payment has been made in respect of his services, the fee paid shall be refunded in whole or in part, as the case may be.

When in consequence of a compromise or for some other reason, it becomes unnecessary to serve or execute a summons, notice, warrant, proclamation, injunction, or order for which a fee has been paid, half the fee shall be refunded if the process has not been issued.

NOTE.—The public should be warned by notice posted in some conspicuous place in every Court that, although no limit of time is prescribed for applications for the refund of fees paid under Rule I, yet as such applications can be granted only on view of the stamps originally filed, which are liable to be destroyed under the rules for the destruction of civil records, there is a probability, in case delay be allowed to occur, that it may become impossible to obtain a refund.

Rule VIII.—In cases which are covered by the note to Article 7 of Section B, Rule I, the additional fee which may become payable shall be paid in court-fee stamps.

Rule IX.—The fee payable by way of poundage on the full amount of the purchase-money shall be paid in court-fee stamps, which shall be affixed on the first application, if any be filed, for payment of such purchase money out of Court, whether it be or be not made by the person who obtained the order of sale, or whether it does or does not extend to the whole of the purchase money. If no such application be filed, then the stamps representing the fee payable shall be affixed on the office report on which the Court has recorded its order for payment. If such an application be filed, it shall bear the requisite stamps for the fee in addition to such stamps, if any, as are needed for its own validity.

9. Any medical practitioner who (1) attends a case of illness in a house in which there is present a person who has come from a place where plague is prevalent, or who (2) attends in any house a case in which he has reason to believe the sick person to be infected with bubonic plague, shall forthwith report such illness to the nearest police station or to the Superintendent of the ward.

10. On receiving a report under rules 6, 7, or 8, the officer in charge of the police station or the Superintendent of the ward, as the case may be, shall immediately report the matter to the District Superintendent of Police, the ^{Cantonment Magistrate} _{Officer Commanding the Station}, and the Medical Officer, and shall enter the name and address of all persons arriving from infected districts in a register to be maintained for the purpose

11. For the purpose of checking the occurrence of deaths the ^{Cantonment Magistrate} _{Officer Commanding the Station} may post police officers or other officials at burial and burning grounds. Such officials may enquire of the mourners the place and cause of death, but shall not delay or interfere with the cremation or burial in any way. No corpse shall be uncovered or examined at or on its way to a burning or burial ground.

12. Compulsory corpse inspection by medical officers should not be resorted to, but during an outbreak of plague all deaths the cause of which cannot be determined not to be plague should be treated as deaths from plague. It will be open to any persons to voluntarily submit a dead body to the examination of a medical officer if they wish to avoid the death from being treated as due to plague.

13. The owner and occupier of a house and the head of any family resident therein shall comply with any direction that may be issued by the ^{Cantonment Magistrate} _{Officer Commanding the Station} or the Medical Officer with regard to the disinfection and cleaning of his house, the disinfection or destruction of clothing and personal effects, the medical inspection of any person who has come from an infected area, the disposal of any corpse, the improvement of the sanitary condition of the premises, and with regard to other similar matters.

14. The Medical Officer shall, if he considers it necessary, himself take measures for the disinfection of a house and for the other matters referred to in the preceding rule.

15. The owner and occupier of any house shall permit the Medical Officer to enter his premises and examine any person whom the Medical Officer has

¹ Read "Superintendent, Residency Buzars" in the Residency Bazar Rules.

reason to believe to be infected with bubonic plague. If the person be a female, the examination shall, if possible, be made through a female doctor, female hospital assistant, or other female agency.

16. If on examination of any person the Medical Officer suspects that such person is suffering from or infected with plague, he may cause such person to be removed to a hospital, and may arrange for his detention, dieting, and medical treatment therein. He may also cause the other occupants of the house in which such person resides to be removed to a segregation camp, and to be detained under observation for ten days: provided that any member of the family of the person so removed who wishes to accompany him to the hospital shall be allowed to do so; provided also that when a person suffering from plague is in such a state that the officer who sees him considers that death is imminent, he shall not insist on the removal of the patient to hospital except at the express wish of his relatives or friends.

NOTE A.—The removal of patients to hospital should be compulsory only in places and under circumstances where it can be carried out so completely as to render it an effectual precaution, and in the case of persons who are left without any one to look after them or who have no home. But every effort should be made to induce patients to go voluntarily to hospitals, and to lessen the aversion to hospitals by encouraging the establishment of private and caste hospitals, by locating them near to infected quarters, by limiting their size so that patients may receive more individual attention and accommodation may be more readily made available for their immediate families and friends, by arranging for the provision of an adequate number of medical attendants and nurses and of ample and comfortable accommodation for patients, and by permitting at least two friends to be in attendance, so that the patient may never be left alone.

NOTE B.—The segregation of contacts, *i.e.*, persons who have been living with or in immediate attendance on the patient, should not be undertaken except where the infection is confined to so small an area that contacts can be accurately known and establishments can be provided sufficient to secure the detention of every contact. Where, however, plague is widespread, the segregation of contacts is impracticable, but a system of surveillance with the co-operation of the inhabitants might prove advantageous if one could be devised to keep watch over their health without exciting them to evade observation.

SECTION III.—ACTION TO BE TAKEN WHEN AN OUTBREAK OF PLAGUE HAS OCCURRED OR IS LIKELY TO OCCUR.

17. When there is reason to believe that cases of plague are occurring in the 1¹_[Secunderabad Aurangabad] Cantonment, or are likely to occur, owing to the proximity of the 1¹_[Secunderabad Aurangabad] Cantonment, to an infected area, gangs of coolies shall be organized to work under each Superintendent or Supervisor as may be determined. The duties to be performed by these gangs are—

- (a) the detection of cases and their removal to hospital;
- (b) the evacuation of houses and the removal of the inmates to camp; and
- (c) the disinfection of houses.

¹Read "Residency Bazaars" in the Residency Bazaars Rules.

18. Wherever such measures may appear to him advisable, the 1st ^{Cantonment} ~~Officer~~ ^{Magistrate} ~~Commanding the Station~~ shall organize search parties under the charge of the Superintendent of the ward. Each search party should be accompanied by a medical officer or medical assistant, and by a female, either European or native.

NOTE—These measures should be employed only when it is clear that they will be effectual in saving the people from disaster, and the only circumstances in which resort to it will be justifiable will be when plague exists in small and well defined areas, such, for instance, as an isolated quarter or ward.

19. No house vacated on account of plague may be reoccupied without the sanction of the 1st ^{Cantonment Magistrate} ~~Officer Commanding the Station~~ and he may cause a notice to that effect to be affixed to each vacated house. He should place a seal on boxes containing valuable property left in houses which have been evacuated on account of plague. Such property may be removed by the owner, but if he declines to remove it, it will remain at his risk.

20. Property of any value belonging to the poorer classes which it may be considered necessary or advisable to destroy as being infected should be appraised by two or more respectable natives, and the value paid to the owner by the Superintendent of the ward. Compensation should also be given without delay to the very poor for the destruction of clothes, etc., which although they may be of no market value, yet serve a useful purpose to the owners.

21. The stock of disinfectants, padlocks, and all surplus appliances for divisional use will be kept in or near the office of the 1st ^{Cantonment} ~~Officer Commanding~~ ^{Magistrate} ~~the Station~~.

22. Each Superintendent or Supervisor, as the case may be, will keep a list of all residents in each house in his sub-division. He will inspect all new arrivals, and will obtain information from them as to their previous place of residence. He will, in company with the local resident appointed to assist him, visit all the houses in his sub-division and obtain information regarding the health of the different inmates, and will on the conclusion of his rounds report verbally to the 1st ^{Cantonment Magistrate} ~~Officer Commanding the Station~~ or to his Superintendent, as the case may be, the occurrence of all cases of sickness and death and any information regarding arrivals from infected localities. Any case of plague and all doubtful ones of sickness should be at once

¹ Read "Superintendent, Residency Bazzars" in the Residency Bazzars Rules

reported to the 1st ^{Cantonment Magistrate} _{Officer Commanding the Station} at his office by day and at his house by night.

23. Each Superintendent or Supervisor will be provided with a sufficient supply of disinfectants ready for use, with tubs, buckets, watering pots, and implements required for unroofing houses and making holes in the walls. There should also be a dooly, *charpai*, or bamboo frame for the removal of the sick. It should be thoroughly washed or sprayed with perchloride

of mercury solution,* and the gunny
portions boiled either at the hospital or
sub-divisional depôt after use. This is necessary, as the same dooly may be
used for carrying suspected cases to the observation ward. All the above
articles should be kept in a room or yard near the centre of his sub-division or
at the office of the 1st ^{Cantonment Magistrate} _{Officer Commanding the Station}.

24. On a report being received by a Superintendent of a ward of the occurrence of a case of plague, he shall at once proceed to the house. If the case appears an undoubted case of plague, he may order the immediate removal of the patient to the plague hospital. If he considers the case to be of a suspicious nature, he shall at once send for the medical officer or assistant, and may then order the removal of the patient either to a plague hospital or plague observation ward, according to the opinion formed of the case. The other inmates of the house, with their movable property, may be taken to the segregation camp in charge of one or more policemen or other responsible persons: provided that any member of the family who wishes shall be permitted to accompany the patient to the plague hospital or observation camp; provided also that when a person suffering from plague is in such a state that the officer who sees him considers that death is imminent shall not insist on the removal of the patient to hospital except at the express wish of his relatives or friends.

NOTE.—*Vide* notes A and B to rule 18

25. Such persons will be supplied with passes by the Superintendent of the ward admitting them into hospital and camp. These passes after counter-signature by the medical officer or the officer at the camp will be returned through the policemen to the Superintendent.

26. The inhabitants of an evacuated house should be allowed to remove sufficient grain for their personal consumption after it has been exposed to the sunlight so as to remove all danger of infection. If in any case it is desired to remove grain for sale from an infected area, it must first be spread out under the direction of the Superintendent, and exposed to air and sunlight for 48 hours. In neither case must the bags or sacks be removed until they have been boiled or disinfected and sun-dried.

¹ Read "Superintendent, Residency Bazzars" in the Residency Bazzars Rules.

27 After evacuation of the house, the walls and floors of all rooms with their contents, except articles of food, which it is not intended to destroy, and of all enclosures; should be disinfected in the manner indicated in Annexure I. All rags and refuse found in the house or enclosure should be burned in the presence of the Superintendent or Supervisor, as the case may be

NOTE.—It is often prudent to disinfect not only one house in which a case of sickness has occurred or dead rats have been found, but those in the immediate neighbourhood as well. Where the Superintendent thinks such disinfection advisable, it should be carried out under his orders.

28. After a house has been disinfected the door shall be secured by a padlock, of which the Superintendent shall retain the key, or entrance may be barred by any other effectual method.

29. When disinfection by chemical agency cannot be carried out effectively, the roof, if not a *gucha* one, should be removed, and holes should be made in the walls to admit freely air and light to the smaller rooms and enclosures. On the completion of these operations the door shall be secured with a padlock, or entrance barred by any other effectual means. The burning down of houses should be resorted to only in the case of temporary structures which are of little or no value, or in the case of houses which are unfit for human habitation.

30. The coolies engaged in the work of disinfection, etc., should be provided with boots or shoes to protect their feet from the danger of infection through abraded surfaces.

31. Experience has abundantly proved that the evacuation of an infected house or houses is seldom in itself sufficient to stamp out the disease. When plague manifests itself in one house in an indigenous form, those in the neighbourhood have, as a rule, already become infected, and it usually follows that cases subsequently appear in them. It is therefore always a wise and prudent course on the occurrence of an indigenous case, not only to evacuate the one house, but also all those in the immediate neighbourhood. The clothing of the inmates of an infected house should be disinfected by boiling.

32. It may be necessary owing to the occurrence of several cases in one area to vacate a group of houses or a whole sub-division and to segregate the inhabitants, and, if necessary, a cordon of police or troops may be employed for the purpose. The whole or any portion of the population vacating may be removed to the segregation camp, but ordinarily inhabitants of non-infected houses should be allowed the option of going where they please. Disinfection and unroofing of the houses should then be carried out in due course.

NOTE.—It must, however, be understood that the success of such a measure as evacuation must largely depend on the willingness of the people, the season of the year, the situation of the town, the facilities for providing camp accommodation, and the strength of the available staff and it should not ordinarily be resorted to save in the case of small detached or definite areas.

33. On the evacuation of the houses in the infected area, all the inhabitants of the non-infected portion of the town should be encouraged to leave the town, and any obstacle which may tend to delay their departure should, if possible, be removed.

34. If the disease shall have become of general prevalence in the [Seemendeabad Cantonment], every quarter being affected, and if the arrangements for dealing with the epidemic are incomplete and defective, effectual measures must be taken to regulate the departure of the population and prevent them carrying infection to healthy areas without, however, employing cordons. Every effort should in the meantime be made to provide sufficient accommodation in huts for a large proportion of the population.

35. A person dealt with under the foregoing rules shall comply with any directions that may be given to him by the Medical Officer with regard to his removal to, and his detention and treatment in, an observation shed, temporary hospital, or place of segregation, and with respect to the disinfecting or burning of his clothing and personal effects, the disposal of any corpse, or with respect to any other similar matter: he shall not depart from any such place of detention without the permission of the Medical Officer.

36. In the event of a death occurring from bubonic plague, the Medical Officer shall arrange for the disposal of the body in accordance with the religious practices of the deceased and the instructions in Annexure I. In the case of a European or Muhammadan, the body shall be buried at least six feet deep; the place of burial, if not an authorised cemetery, should be well away from habitations and sources of water-supply. In the case of a Hindu, the body shall be completely and thoroughly burned in an isolated locality in the presence of a responsible official.

37. The ¹ [Cantonment Magistrate] _{Officer Commanding the Station} shall provide suitable conveyances for the free carriage of persons suffering, or suspected to be suffering, from the plague, and it shall be lawful to drive or carry such conveyances through any public or private thoroughfare.

38. Any conveyance, public or private, used for the carriage of a person infected with plague, or suspected of being infected, shall be thoroughly disinfected and exposed to air and sunlight for seven days previous to being again brought into general use.

SECTION IV.—GENERAL SANITARY PRECAUTIONS.

39. The ² [Cantonment Magistrate] _{Officer Commanding the Station} may issue general orders that by a certain specified date certain sanitary precautions of a simple nature, such as

² Read "Superintendent, Residency Bazaars" } in the Residency Bazaars Rules.

the free ventilation and lime-washing of houses, the scraping and burning of floors, the cleaning of latrines, the removal of filth and rubbish, and of partitions which obstruct light and ventilation, shall be carried out within any specified area, and all persons residing within such area shall be bound to give effect to these orders.

If within such time such persons fail to carry out the operations specified in the notice, the Medical Officer may, with the sanction of the ¹ [Cantonment Magistrate
Officer Commanding the Station] enter upon the premises at any time between sunrise and sunset after giving such notice of his intention as shall under the circumstances appear to him to be reasonable, and carry out the measures specified above: provided that when an apartment is occupied by a female who, according to the custom of the country, does not appear in public, the Medical Officer shall give at least one hour's notice of his intention to enter such apartment, and shall afford her every reasonable facility for withdrawing from such portion of the apartment as he may desire to enter. The expense incurred may be recovered from the persons who, in the opinion of the ¹ [Cantonment Magistrate
Officer Commanding the Station] may fairly be held responsible.

40. When any premises or any block of huts are in such an insanitary state as, in the opinion of the Medical Officer, to make the inmates thereof specially liable to an attack of the bubonic plague, he may require the owner by notice to have the whole or any portion of such premises cleansed within a specified time in such manner as may appear to him necessary, and may, in consultation, if necessary, with a competent Engineer, direct the owner to remove all structures, partitions, erections, or portions of house-walls which obstruct light and ventilation. If within such time the owner fails to carry out the operations specified in the notice, the Medical Officer may, with the sanction in writing of the ¹ [Cantonment Magistrate
Officer Commanding the Station], enter upon the premises at any time between sunrise and sunset after giving such notice of his intention as shall under the circumstances appear to him to be reasonable and carry out the measures specified above: provided that when an apartment is occupied by a female who, according to the custom of the country, does not appear in public, the Medical Officer shall give at least one hour's notice of his intention to enter such apartment, and shall afford her every reasonable facility for withdrawing from such portion of the apartment as he may desire to enter. The expenses incurred may be recovered in the manner provided in rule 39 above.

41. In any part of the ² [Cantonment] where cases of plague have occurred, all grain godowns or places where grain is stored or sold for

consumption shall be open at all times for inspection by the Medical Officer or officer deputed by him.

When a grain godown is found improperly ventilated or in such an insanitary condition from damp or otherwise as to be unwholesome for storage of grain, the proprietor shall be required to remove the grain to a properly constructed godown.

All grain godowns in which dead rats have been found shall be declared unwholesome and unfit for use until thoroughly disinfected. The grain found in such godowns may be turned over and properly aired, or destroyed as unfit for food, and any bags in which infected grain is found stored shall also be destroyed.

42. No person, except the authorized servants of the Local Fund Committee, shall pick up rags or other refuse in the streets or elsewhere. The ¹ [Cantonment Magistrate] ² [Officer Commanding the Station] may disinfect or, at his discretion, destroy any collection of rags in rag-pickers' houses or rag-stores.

43. All expenses incurred in carrying out these rules shall be debitable to the ² [Secunderabad Aurangabad Cantonment] Fund.

SECTION V.—ORGANIZATION OF PLAGUE HOSPITALS AND CAMPS.

44. A site for the hospital should be selected as near as possible to the infected population, but a permanent building, suitable in all respects for a hospital, may sometimes be obtained either inside or on the outskirts of the town. It can be easily disinfected when it is no longer required for a hospital, and such a building would be more popular and convenient than huts erected at a distance from the town.

45. If a suitable building is not available, it will be necessary immediately on the outbreak of plague to erect huts for plague patients, for convalescents and for the observation of doubtful cases on the nearest site. The hospital huts intended for females should be some distance apart from those intended for males. Movable mat screens should be provided between the beds to

secure as much privacy as is possible to each patient. Every patient should be supplied with a cheap substitute for a spittoon, and

both it and the vessels used as bed pans should contain a sufficient quantity of an effective disinfecting solution. The floor of the hospital huts should be freely watered daily with the perchloride of mercury solution, and vessels containing the same solution should always be available for the disinfection of the hands and feet of the native attendants.

¹ Read "Superintendent, Residency Bazar" } in the Residency Bazar Rules.
² Read "Residency Bazar" }

46. Relations and friends of patients are to be permitted to attend upon them, so far as is consistent with the maintenance of discipline and order, and a stated time should be set apart for the visits of all other relatives and friends of the patients.

47. On the arrival of the patient at the hospital, all his clothing should be removed and burnt in the presence of the Medical Officer in charge. Hospital clothing should then be supplied. On recovery the patient may be transferred to the convalescent ward or discharged. In either case he should be given a warm bath and supplied with new clothes.

48. Huts for the segregation of individuals removed from infected houses and of all suspected persons should, if possible, be erected at a convenient distance from the hospital compound, and should be surrounded by a bamboo or other fence. Individuals brought for admission into this camp may, if necessary for purposes of cleanliness, be bathed in a solution of carbolic acid, one to a hundred parts of water, and their clothing disinfected.

NOTE.—*vide* Note B to rule 16

49. All the inmates should be inspected daily either by the Medical Officer or a medical assistant, and any case of plague detected should be removed at once to hospital, and doubtful cases of fever to the observation ward. If no case occurs amongst them after an interval of 15 to 30 days, they may be allowed to return to their houses if such houses have been cleaned and disinfected, and if the ^{Cantonment Magistrate} _{Officer Commanding the Station} considers that they are fit for re-occupation, or they may be admitted into the camp for healthy individuals after a second disinfection of their clothing.

50. Both the hospital compound and the segregation camp should be guarded by police or troops to prevent the egress of inmates.

51. The establishment of separate hospitals and segregation camps for the reception of private families or for members of special castes, and religions should be encouraged, and every assistance should be given by the

^{Cantonment Magistrate} _{Officer Commanding the Station} for their erection and supervision. The treatment of the patients admitted into these hospitals may, if desired, be placed in the hands of *vaidis* and *hakims*, and the internal management of both hospitals and camps may be conducted by members of the caste or religion concerned, subject however to the general supervision of a European doctor in sanitary matters, where possible, and to the control of the local authorities, and the usual arrangements as regards guards.

No segregation of the sick, except in the general hospital or in the separate hospitals referred to in this rule, can be permitted except under the special

orders of the ¹[Cantonment Magistrate
Officer Commanding the Station] in each case. It should be explained to the people that in no case will they be compelled to submit to European treatment if they prefer, and are able, to obtain for themselves a *hakim* or *vaid*.

52. A camp for the healthy, *i.e.*, for people removed from houses not infected, should also be arranged for. The inmates should be allowed to pursue their daily employments on condition that they sleep in camp. The huts should be numbered, inmates registered, and a daily inspection made of all the residents. If no case of plague has occurred in a hut for 15 to 30 days, the inmates may be allowed to return to their houses if such houses have been ventilated, cleaned, and disinfected and if the ¹[Cantonment Magistrate
Officer Commanding the Station] considers that they are fit for re-occupation.

53. Should a case of plague occur in a hut, the patient should be removed to hospital, and the other inmates to the segregation camp. The hut should be at once burned and the site disinfected with the perchloride of mercury solution.

54. The method of arranging a plague camp is given in Annexure II to these rules.

55. The ¹[Cantonment Magistrate
Officer Commanding the Station] may close a private hospital if it appears to him that the management of such hospital is not satisfactory.

SECTION VI.—MISCELLANEOUS.

Inoculation.

56. On the occurrence of an outbreak of plague the ²[Principal Medical Officer,
Staff Surgeon Secunderabad and Belgaum Districts] should at once place himself in communication with M. Haffkine in Bombay with a view of obtaining a supply of lymph and syringes for inoculation and instructions for their use. Inoculation should then be started under the ²[Staff Surgeon]'s
Senior Medical Officer's personal supervision, and inoculation certificates granted free of charge to all who voluntarily undergo the process.

57. No person shall be inoculated without his own express consent.

58. Every person who holds a certificate that he has been inoculated by M. Haffkine's process, and provided that such certificate is less than six months old, shall be entitled to the following privileges:—

(a) He shall not be liable to detention at any railway or road observation camp when travelling except for such period as may be

required to disinfect his baggage and clothes, if those are considered suspicious.

- (b) He shall not be liable to take out passports and present himself daily for observation for ten days after arrival from a plague infected place.
- (c) An inoculated person who has been living in an infected house or has otherwise been exposed to plague infection shall not be liable to be segregated, but may be required to evacuate the infected house and to have his clothes and personal effects disinfected. When, however, all the occupants of a house have been inoculated, neither the patients nor the other inmates of the house shall be required to be segregated, provided arrangements are made to the satisfaction of a Plague authority for the disinfection of the house and its contents, and for the prevention of the spread of plague to the neighbouring dwellings.

The inoculation certificate shall be in the following form :—

PLAGUE INOCULATION [ROYAL ARMS] CERTIFICATE.

NOTE.—This certificate exempts the holder from segregation, from detention when travelling, and from ten days' observation under the passport rules. It does not, however, exempt him from liability to evacuate an infected house except in the case where all the occupants of the house have been inoculated, or to have his clothes disinfected when travelling. The certificate is valid for a period of six months.

Passes.

* 59. Persons arriving from an infected area who hold a certificate signed by a Medical Officer or Plague Executive Officer of having undergone detention in an observation camp for the prescribed period need not be again kept under observation unless it appears that since they were discharged from the observation camp they have halted at some place *en route* where they may have contracted infection.

60. Persons who have been detained in a camp or otherwise under observation in the ¹[Secunderabad
Aurangabad] Cantonment] shall on departure be furnished with a certificate giving name, caste, age, occupation, address, destination, time of detention, and date of departure, and signed by the observing officer.

Compensation.

61. The ²[Cantonment Magistrate
Officer Commanding the Station] may, in his discretion, pay compensation to any person who has sustained substantial loss or damage by reason of anything done under the powers conferred by these regulations: provided, however, that no person shall be entitled as of right to claim any compensation whatsoever.

General.

62 Every person to whom an order is given by any officer empowered to act under the preceding rules in furtherance of the object of the rules shall duly obey that order.

ANNEXURE I.

Memorandum for the use of officials.

1. *Symptoms of plague.*—The symptoms of plague are high fever of sudden onset, violent headache, severe pain in the back and limbs, and delirium. The glands in the groin, or in the armpit or neck, are generally swollen and tender, but this is not invariably the case. Cough and pain in the lungs are frequently observed. Death often occurs in two or three days.

¹ Read "Residency Bazaars"
² Read "Superintendent, Residency Bazaars" } in the Residency Bazaars Rules.

2. *Method of segregation of a person suffering from the above symptoms and of his attendants.*—A patient should be removed at once to a small *chappar* hut to be constructed of grass screens, and erected well away from habitations. The site should, if possible, be open and exposed and near a well; this well should not be used by other people, if there be more than one well in the village. The police officer should tell off one of the sick person's relatives to stay with him, and should see that arrangements are made for the supply of food, fuel, etc

3. *Method of segregation of the relatives and friends of such person.*—The other people living in the house or hut in which the sick person was attacked, or was living, should also be kept separate in another place, in *chappar* huts to be erected well away from habitations, and similar arrangements should be made for their food, water-supply, etc. Separate huts should be provided for males and females, but any member of the family or friends of the patient who so desires shall be permitted to accompany the patient.

4. In all cases the mukaddam and kotwar should take steps to see that these orders are carried out and the people kept separate, and an immediate report made of any further suspicious illness or death. People in the adjoining huts should be kept under observation for ten days, and if the case has been an indigenous one, the houses in the neighbourhood should be evacuated, the villagers making the necessary arrangements to hut themselves beyond the infected village.

5. A *chappar* hut after occupation by a person suffering from plague should be burnt, and this should also be done to the *charpai* upon which the person is carried to the hut. The well should be completely cleaned out and disinfected.

6. Disinfection should only be carried out under the superintendence of the Medical Officer, Special Plague Officer, Assistant Surgeon, or Hospital Assistant.

7. Burning down of houses should only be resorted to in cases of temporary structures which are of little or no value, or in case of houses which are unfit for human habitation. The unroofing of houses should not be resorted to unless it is found to be absolutely necessary to carry out disinfection effectually.

8. The houses in which plague cases have occurred or dead rats have been found should only be disinfected. In case of houses occupied by a member of unconnected families only the room or rooms which have been occupied by the plague patient should be disinfected, while in the case of houses containing only one family disinfection should be applied to the whole

of the house. The disinfectant should be thoroughly applied to the floor of the rooms and all the corners and recesses and places which might have served for the reception of infected clothing, and so much of the walls within reach of the disinfectors should also be disinfected.

9. The most efficacious chemical disinfectant is solution of perchloride of mercury, and if prepared in the following proportion will give a suitable and concentrated solution, which can be diluted and quantity increased when required to be used :—

	Oz.
Perchloride of mercury	21
Chloride of ammonia	15
Hydrochloric acid	100
Aniline blue	1
Water	340
<hr/>	
Total	477
<hr/>	

For actual use $3\frac{1}{2}$ ounces of the above solution is diluted in 1 gallon of water, which gives a solution containing perchloride of mercury in proportion of about 1 to 1,000.

10. The disinfectant should only be made up by the Medical Officer, Special Plague Officer, Assistant Surgeon, or a Hospital Assistant in a concentrated form as given in the previous paragraph, and careful instructions given as to the amount of water to be added. The capacity of vessel used for measuring out the perchloride of mercury solution should be accurately adjusted to that of the wooden buckets in which that solution is diluted for use. The disinfectant should be poured over the floor, and the walls vigorously brushed down with it. Before commencing disinfection all the furniture and household effects should be cleared out and put in the open. When the room has been dealt with, the effects are to be taken in hand. As soon as disinfection has been completed, the household effects ought to be replaced; and as soon as the rooms are dry, the inhabitants ought to be allowed to return. Only wooden vessels should be used for disinfecting solution on account of the acid contained in it.

11. In cases where it is not possible to carry out chemical disinfection, the disinfecting agency of desiccation should be relied on. For this purpose the house should be thoroughly cleared of cowdung and moist accumulation, and left empty for two months. If, however, it is near the rains, and to

hurry on disinfection by desiccation, it may be necessary to remove the roof to let in air and sunlight freely.

12. In disinfecting household and personal effects, the feelings of the people in carrying it out should be consulted. All destructive methods of disinfection are proscribed, and nothing which could by any possibility have any value for its owner should be broken up or destroyed by fire.

13. The best way to disinfect infected objects is to keep a cauldron of water at the boiling point, and to immerse in it for a moment the various infected objects. As an alternative to the momentary immersion in boiling water, the infected clothing might be steeped in disinfecting solution; but this solution should be neutral, for, if it is acid, the article will be damaged. This neutral solution of perchloride of mercury can be prepared in the same manner as the acid solution mentioned in paragraph 9, with the exception of leaving out the hydrochloric acid and the disinfection to be carried out by similar agency as mentioned in paragraph 6.

14. It is no use carrying infected articles and clothing to a distance to a steam steriliser, but the disinfection should be carried out on the spot.

15. Dealing with fabrics, such as silk, etc., which would be injured by immersion into boiling water, these should be exposed to the rays of the sun for several days.

16. Infected grain and such articles which cannot be disinfected by disinfecting solution or boiling should be disinfected by desiccation, and should be spread out in thin layers and exposed to the rays of the sun.

17. Disinfection of the persons of travellers is not necessary, and should be abandoned.

18. Disinfection of drains and cess-pits is not necessary, and should be abandoned; but it is advisable to continue the disinfection of latrines.

ANNEXURE II.

Instructions for establishing Plague Camps.

The following are the standard plans of a plague hospital of 25 and 50 beds respectively :—

1. The lineal dimensions of the isolation hut should be adhered to whatever the shape, elevation, and nature of the structure may be.

2. A regularly constructed hut is recommended with the roof well raised on the side supports, which should be 5 to 6 feet in height, allowing 1½ feet open space between the side wall walls for ventilating purposes.

3. The floor should be raised and formed of rammed earth at least 1 foot in depth to permit of its being readily scraped, disinfected with quicklime, relaid or completely removed.

4. The huts admit of a front and rear screen wall being affixed, so that each hut may be adapted for cottage or zenana purposes.

5. The arrangement of the huts can be varied according to site available in echelon, in single, double, or treble lines if necessary; but when more than a single line is required, it is advisable to adopt the echelon arrangement.

6. The central street should not be less than 60 feet in width, the distance between lines not less than 40 feet, and from hut to hut not less than 8 feet.

7. The arrangement and dimensions of the huts render them easily adaptable for suspect, segregation, and zenana purposes, as zenana screen mats can be readily put up, 10 lineal feet being reserved in front and rear respectively for the purpose, and one, or several, or many, huts may be screened off as required.

8. Each hut is intended for one plague patient, but under pressure could accommodate two plague patients. The necessity for isolating each plague patient is abundantly evident, and the crowding of cases tends to accentuate conditions facilitating the spread of the infection and involves danger to attendants.

9. If the huts are intended for "suspects," two "suspects" could be safely accommodated in each hut; and, if intended for simple segregation purposes, there is sufficient accommodation for four persons. Each hut may, as stated, be formed into a zenana.

10. In a general segregation camp the huts may be of cheap construction, and a lean-to structure may suffice; but the arrangement of the huts should as far as practicable be as directed in regular line, in parallelogram or echelon, with not less than the minimum distances between the lines and huts.

11. All huts should have mat screen walls, which can be readily washed with quicklime while the floors are being disinfected, or relaid with the same material.

12. It may not be necessary to establish or equip a plague hospital except on the smallest scale of two or three beds, but Plague Committees and Staff Surgeons should select eligible sites, and be prepared at a moment's notice to form segregation camps and establish or extend a plague hospital, to that the huts already, or about to be, erected may fit in with the proposed scale and plans.

13. The hospital and observation wards should be surrounded with a fence.

14. Care should be taken to ensure a good and plentiful supply of water* to different camps. If the water-supply to the town is conveyed through pipes, connections should, if practicable, be carried into the camps. Bathing platforms at some distance apart for the two sexes should be constructed and provided with surface drains for the removal of surplus water.

15. Separate latrines for the sexes should be erected in connection with the two camps and hospital, and they should be well lighted with ordinary post lamps.

16. Bunniahs' shops with all supplies should be provided for each of the camps.

Duties of passport holders. declare truly his name, address and such other particulars as may be required by

the officer issuing the passport. He shall, unless exempted, for ten days from the date of the issue of the passport daily present himself with his passport at the appointed time at the hospital entered in the passport or before the local authority of the place where he may be for the time being, and shall daily obtain the signature of the medical officer or local authority on his passport in token of his having so presented himself. If he becomes ill or if any sickness occurs in the house, in which he is or has been residing during the said period of ten days, he shall give immediate information of the same to the medical officer or local authority. He shall report similarly any change in his residence occurring within ten days from the date of the issue of the passport, and if he changes his residence, he shall, before departure, get the entries of his passport altered by the local authority or medical officer. Intimation of issue of passports. years of age, the obligation to take out passports for them to present them for daily inspection, to report truly their names and addresses, to intimate any change in their residence, and to comply otherwise with the requirements of these regulations shall rest on their legal guardians or on any person in whose charge they travel or who receives them at the railway station of destination.

7. The Nizam's Guaranteed State Railways Administration shall put up in a conspicuous place in every railway carriage a copy of the following notice in English, Urdu, Telugu, and Marathi :—

NOTICE.

The Hyderabad plague regulations require all passengers arriving from plague-infected parts to take out passports from Medical Officer, Gulbarga, Wadi, Khammamett, Indur or the Plague Police Officer travelling with the train. Any person refusing to comply with or attempting to evade these rules renders himself liable to punishment with imprisonment for a term which may extend to six months or with fine which may extend to one thousand rupees or with both, under section 188, Indian Penal Code.

8. All passengers should be required to quit their carriages and should be examined on the platform or other suitable place, suspicious cases being removed for more careful investigation to a place reserved for the purpose. Care must be taken that the carriages are locked before the arrival of the train at the inspection station, and that no passenger is permitted to leave his carriage until the arrangements for such examination are complete.

9. Railway Administrations are required to instruct their staff to give every assistance to the medical and police officers conducting the inspection in order to minimise the detention of the trains, and to detain the trains until the medical inspection is over. Railway ticket-collectors may be allowed to accompany the plague inspecting officers, if this course is found to economize time.

10. It is the duty of railway authorities, assisted by the platform police, to see that passengers alighting at a railway station do not leave the premises except by the proper exit, and to afford every facility for the working of the plague regulations. Ticket-collectors should be required to stop all passengers holding tickets issued at infected or notified stations until their names and addresses have been taken down, and passports issued to them by the plague official appointed for the purpose.

11. The inspecting officers should not only thoroughly examine passengers and passenger vehicles, but should also inspect the guards and Post Office vans, so that no person may escape inspection. No distinction should be made between railway employes and others, and before any train, whether carrying passengers or goods, leaves the inspection station, a

thorough search should be made to discover if any persons have concealed themselves with the object of evading inspection.

12. Female passengers should in no circumstances be required to be examined by men. For their inspection, one or more nurses are attached to each inspection station.

13. After examination, all persons shall be allowed to proceed to their destination except—

- (a) those suffering from, or suspected to be suffering from, plague or those who have so recently suffered from plague as to be possibly in an infectious state.
- (b) pilgrims or persons belonging to any other class who appear for any reasons to be specially dangerous whether travelling single or in numbers, or persons who cannot be depended upon to present themselves daily for medical examination for ten days on arrival at their destination, or to give information should plague occur among them.

Persons coming under class (a) shall be detained until they are cured or as long as the infection or suspicion of plague remains. Information of such cases shall be sent urgently to the Plague Commissioner. All contacts shall also be detained for a period of ten days from the occurrence of the last case of plague among them.

Persons coming under class (b) may be detained at the discretion of the medical officer till the full period of incubation *i.e.*, ten days) has elapsed since they left the infected area, or if that date is not known, for ten days.

14. Officers in charge of plague camps should give a certificate to every person discharged from the camp, in order to enable such persons to resume their railway journey.

15. Any person arriving at, or passing through, an inspection station may, at the discretion of the inspecting medical officer, be compelled to obtain a passport and to undergo surveillance for ten days.

16. The inspecting medical officer may also require any passenger to deliver up his ticket, in order that the prescribed mark indicative of his having arrived from a plague-infected locality, and therefore of his being liable to obtain a passport, may be impressed thereon; and such passenger shall be bound to deliver it up accordingly.

17. The mark thus used is a hole, four-tenths of an inch square, punched in the long side of railway tickets. It should be made only on the tickets of those passengers who come, or are suspected to come, from plague-infected areas or from places notified by Government. The special mark

should be made at the first inspection station at which the passenger arrives. It is not necessary to punch his ticket again at any subsequent inspection station through which he may pass, but he must be medically examined nevertheless. Tickets of persons who come from an uninfected area, or who, though coming from an infected area, have been detained for ten days at one of the observation camps need not be so marked.

18. Care should be taken that the plague punches are not used except by responsible persons, and that they are kept in safe custody when not in use. The officers in charge of railway inspection stations will be held responsible for the safe custody of the plague punches, and under their orders the punches may be used by their assistants, but in no circumstances by the police. The wrong punching of tickets should be specially guarded against, as the annoyance caused thereby, and by the consequent liability to take out a passport, is very great.

19. The passport rules should be worked in such a manner as to cause the minimum of inconvenience to *gosha* women, and persons belonging to that class should, whenever it is possible to do so, be exempted from attendance at the hospital or elsewhere, and be inspected at their own houses. The examination of *gosha* women should always be conducted by females, who when not trained or duly qualified, should work under the instructions of the medical officer.

20. With a view to facilitate the working of the passport rules, railway employes holding periodical railway passes and Government officials holding standing passes should be required to provide themselves with exemption passes

21. If a passenger from a plague-infected or notified area appears to be attempting to evade inspection either by alighting at a railway station short of that for which his ticket has been taken or of an inspection station, or by arriving otherwise than by train at or beyond an inspection station, he may be detained by the railway police or by any officer specially authorized in this behalf at the railway station at which he has alighted or arrived, and be forwarded or returned, as the case may be, to the inspection station by the same or next train proceeding thereto, and there handed over to the medical officer in charge. The railway fare of the person so detained and forwarded to the inspection station shall be paid by the passenger, and, if not paid, shall be recovered from him by the railway authorities as excess fare.

22. Special care should be taken to prevent evasion of the rules by passengers halting or re-booking at intermediate stations. If a passenger coming from a plague-infected area breaks his journey at any station short of

his destination, his ticket should nevertheless be punched, or if the station has not been supplied with a plague punch, the right hand lower corner of the ticket should be clipped with scissors. If a passenger coming from a plague-infected area alights at any station, he should be brought under the passport rules. If he announces his intention of re-booking within twelve hours, his new ticket shall be punched or clipped as above. If necessary, the powers conferred by the last preceding rule may also be employed, in the case of passengers whose conduct gives ground to suppose that they intend to evade rules, who should be watched.

23. Persons infringing these regulations render themselves liable to prosecution and punishment with imprisonment for a term which may extend to six months or with fine which may extend to one thousand rupees or with both, under section 188, Indian Penal Code.

24. The Plague Commissioner has the power to exempt, from the Exemption from rules requiring necessity of taking out passports or passes, passports and passes, the following classes of persons:—

- (1) Railway, Postal or other public servants of such grades as may from time to time, be determined by him
- (2) Any person with regard to whom there are no reasonable grounds for suspicion of infection.

25. Any person disobeying or contravening or refusing to submit himself to any regulation made under the Epidemic Diseases Act, 1897, or obstructing any measure which has been taken by Government, or which any authority, or officer appointed under competent authority to carry out such regulation has been required or empowered to take under any such regulation, shall be deemed to have committed an offence punishable under section 188 of the Indian Penal Code, and shall be liable, on conviction, to imprisonment of either description for a term which may extend to six months or fine which may extend to one thousand rupees or both.

26. The plague regulations being orders formally made and issued by Government under the Epidemic Diseases Act, no sanction is required as a condition precedent to prosecution for disobeying them.

27. If the Police have reason to believe that a person is evading the plague regulations by giving a false name or a wrong address, they can act under section 57 of the Criminal Procedure Code, and detain the person until satisfied that they have got his true name and address. Failing information as to the person's true name and address or the execution of a bond, the Police should without delay forward him to a Magistrate.

28. The following are the duties of the railway officials under the plague regulations :—

- (1) To see with the aid of the platform police that passengers alighting at a railway station do not leave the premises except by the proper exit.
- (2) To see that the railway tickets issued in an infected area, and the fresh tickets issued to persons from infected areas who re-book, are punched or clipped as prescribed.
- (3) To stop all passengers presenting plague punched tickets from infected or notified stations until their names and addresses have been taken down and they have been given passports either by the plague official appointed for the purpose or at smaller stations by the station staff themselves.
- (4) To detach and disinfect railway carriages in which persons suffering or suspected to be suffering from plague have travelled.
- (5) To take steps for tracing and destroying rats that may arrive from infected areas concealed in the goods imported.
- (6) To put up a notice in all railway carriages intimating that passengers from infected parts should take out passports at stations of destination.
- (7) To lock the carriages before the arrival of the train at the inspection station.
- (8) To detain the train until the medical inspection is over.
- (9) To see that no passenger is permitted to leave his carriage until the arrangements for his examination are complete.
- (10) To give every assistance to the medical and police officers conducting the inspection in order to minimise the detention of trains.
- (11) To carry out the instructions regarding the transmission of the names and addresses of passengers.
- (12) To afford every facility towards the working of the plague regulations generally.

29. (1) Persons, who hold certificates that they have been inoculated by M. Haffkine's process, shall be entitled to the following privileges provided that such certificates bear a date not earlier than six months and not later than ten days previously.

- (a) Unless suffering from, or suspected to be suffering from, plague they shall not be liable to detention at any railway or road observation camp when travelling except for such period as may

be required to disinfect their baggage and clothes, if those are considered suspicious.

- (b) They shall not be liable to take out passports and present themselves daily for observation for ten days after arrival from a plague-infected place, or from any place notified by the Honourable the Resident or the Plague Commissioner for the purpose of these rules, but they may be observed at their own residence and shall, with this view, be bound when required by any plague officer to give their names and addresses for the next ten days.

(2) The inoculation certificate shall be in the form annexed. But when in a certificate issued under authority, the thumb impression has not been taken, other satisfactory evidence of identification may be accepted.

30. When any carriage from an infected area is detached from a train

Disinfection of railway carriages at any railway station, it shall be disinfected from infected areas. and ventilated by the railway authorities in the following manner as soon as possible and before it is again brought into use :—

- (i) *Third class carriages.*—The interior wood-work of the carriages, especially the floors and seats, shall be thoroughly washed with a solution of perchloride of mercury (1 in 1,000) and of hydrochloric acid (2 in 1,000) ; the doors and windows shall be opened, and the vehicle exposed to the air ; the sweepings shall be carefully collected and be burnt.
- (ii) *First and second class carriages.*—The floors and wood-work shall be treated as above, the cushions being also brushed and thoroughly cleansed and exposed to the sun for not less than four hours.

31. (1) Any railway carriage from which a passenger, who is suffering

Disinfection of railway carriages from the plague, has been removed shall be in which plague patients have travelled. detached at the nearest convenient station, and shall be disinfected by the railway authorities as follows :—

- (a) The carriages after being detached from the train, should be thoroughly washed with soft soap. After an interval of two or three hours this should be washed off with plain water, and then the following disinfecting solution should be thoroughly sprayed all over the interior as well as the exterior of the carriages by means of a syringe :—

Corrosive sublimate	1 oz
Hydrochloric acid	1 do
Water	3 gallons.

The solution should be allowed to dry on the carriages. Special care must be taken to direct the solution into all the cracks and crevices and *ghilmils*.

(b) After disinfection, the carriages should be kept out in the open for forty-eight hours. They can then be brought into use again.

(c) In the case of first and second class carriages, which afford greater facilities than third class compartments for the harbouring of plague germs, it will be necessary if the carriages are contaminated to burn cushions and to disinfect the wood-work in the manner indicated above, and re-paint the interior.

(2) If a compartment has been used by a suspicious case of plague it shall be treated as directed in the preceding regulations. If of the third class its use may be permitted as soon as it is thoroughly dry; but if it be of the first or second class, it shall, after such disinfection, be kept locked and unused until the nature of the case be definitely ascertained, when the question as to whether or not the cushions be destroyed and further disinfection be effected, shall be decided in accordance with the preceding clause (a) (c) of this regulation.

Preamble.—In these rules “horses” includes also ponies, asses, mules and jennets. “Diseased” means affected with glanders or farcy :—

I. Officers Commanding Stations are empowered to cause to be seized any horse within cantonment limits which they have reason to believe, from personal knowledge, or from information given by any person, and taken down in writing, is diseased, and may, for this purpose, cause to be entered and searched any field, building, or other place in which they have reason to believe any such horse is to be found.

IV. When any diseased horse has been in any building, shed, etc., the Officer Commanding may direct such building, etc., to be disinfected and the fittings thereof destroyed, should he consider such to be necessary.

PART VII.—PROCEDURE—FROM PRESENTATION TO
ADMISSION TO REGISTRATION.

110. On presentation of a document, a registering officer shall forthwith make on it an endorsement in the form of Appendix XV. A registering officer is bound to receive every document brought to his office for registration¹ [within the prescribed hours of business] and to make on such documents the above endorsement. He must do this even though he proceeds no further.

111. After making the presentation endorsement, the registering officer shall proceed as follows—

- (a) Satisfy himself that the document is duly stamped.
- (b) That under sections 28 and 29 it has been presented in the proper office.
- (c) That it is not time-barred under sections 23—26 of the Act
- (d) That it does not contain any interlineation, blank, erasure or alteration unattested by the initials of the executing parties (section 20).
- (e) That it is written in a language deemed to be commonly used, or if not, that it is accompanied by a true translation, and also by a true copy (section 19).

- ²[(j) That as required by Section 27 of the Indian Stamp Act³ [1899], the consideration (if any) is set forth in the deed.]

¹ Substituted by notification No. 293, dated the 19th August 1891. *Hyderabad Residency Orders*, 1891, Part I, p. 161.

² Added by notification No. 257, dated the 18th December 1884. *Hyderabad Residency Orders*, 1885, Part I, p. 4.

³ Substituted by notification No. 124, dated the 28th May 1902. *Hyderabad Residency Orders*, 1902, Pt. I, p. 143.

112. If these preliminary conditions are found to be fulfilled, the document shall be accepted for registration and fees demanded. If not paid, registration shall be refused. If paid, the amount of fees shall be endorsed on the document, and shall be entered in Fee Book and Receipt Book each kind of fee being separately entered.

113. If the registering officer considers that the document is not properly stamped (rule 111-a) under the Indian Stamp Act, ¹[1899], he shall suspend registration proceedings, impound the document, and forward it to the Collector of Stamp Duty, endorsing on it the date of its being impounded—*vide* rule No. 38 (5).

¹Provided that if the executant or executants are present, he shall before forwarding the document to the Collector follow the procedure for the admission of the document to registration laid down in rules 125—129 in so far as they are applicable, no fees, however, being then taken. The fees shall not be levied and the document shall not be copied or certified as registered under rule 133 until it has been returned to the registering officer with the Collector's certificate that the proper stamp duty has been paid thereon.

113-A. If the executant of a deed who is in doubt about the proper stamp consults a registering officer before formal presentation, the required information should be given to him without impounding the deed.

114. If the document is returned by the Collector direct to the registering officer, a notice of its receipt should be sent by service bearing letter to the presenter, and on his appearance, or on that of the executing parties, proceedings shall be resumed at the stage at which they were suspended, due regard being had to section 34.

115. If a document dutiable under the Court Fees Act, 1870, be considered insufficiently stamped, it shall be refused registration, procedure being as prescribed in rule 24.

116. If the document has been presented in the wrong office, rule 111 (b), the registering officer shall endorse it in the form of Appendix XVI and return it to the presenter.

117. If the document is time-barred under sections 23—26 [rule 111-(c)] and no application for extension of time has been lodged with the registering officer, registration shall be refused and procedure followed as in rule 24.

118. If such an application has been lodged, proceedings shall be suspended, pending receipt of the Registrar's orders on the application.

119. If the document is defective in the points mentioned in rule 111, clauses (d), (f), (h),¹ [(i) or (j)] procedure shall be according to rule 122.

¹ See notification No. 124, dated the 28th May 1902. *Hyderabad Residency Orders*, 1902, Pt. I, p. 148.

¹ Substituted by notification No. 257, dated the 16th December 1884. *Hyderabad Residency Orders*, 1886, Pt. I, p. 4.

120. If the document is written in a language not commonly used, or is not accompanied by a translation or true copy, rule 111 (e) and (f), procedure shall be according to rule 122. But if the document is again presented without a translation or true copy, registration shall be refused and proceedings follow as in rule 24.

121 If the person by whom it purports to be presented is not competent to present [rule 11 (g)], registration shall be refused and rule 24 be followed.

122. An incomplete document may, in cases specially provided for by these rules, be returned for amendment. Prior to such return, it shall be endorsed in Form XVI of the appendix, provided that if the executing parties are present and offer to make the required amendment in the office, the document may be simply handed back to them for the purpose.

123 When documents are returned for amendment under the next preceding rule, or are impounded, they shall, on re-presentation, if duly amended or certified to be duly stamped, be accepted for registration, and fees be demanded.

124. When the registering officer has satisfied himself that as to all these preliminary points the document fulfils the conditions necessary for registration, and has levied fees, he shall continue proceedings as follows:—

If the person who presents the document is the executant, the registering officer shall satisfy himself as to his identity (*vide* rule 125), and shall then examine him as to admission of execution and receipt of consideration;

If the presenter is not the executant, and the executing parties are not present, the registering officer shall enquire from the presenter whether he will bring the executing parties and witnesses, or whether he wishes them to be summoned under section 36, and shall act accordingly ;

If it appears probable that the period allowed by section 34 will expire before the executants appear, the registering officer should advise the presenter to apply to the Registrar for a direction under the proviso of section 34 for the extension of the period for appearance. If the application be lodged with a Sub-Registrar, he should forward it to the Registrar ;

If the period allowed by section 34 has expired before the executing parties have appeared, and no application for extension of time has been lodged with the registering officer, he shall refuse registration, but if such an application has been lodged, he shall suspend proceedings pending receipt of the Registrar's orders on the application.

125. Registering officers shall personally, and not through their mohurrats, enquire into the identity of persons appearing before them in connection with documents presented for registration or the authentication of powers of attorney under section 83. If the executing parties are not personally known to the registering officer, he shall satisfy himself of their identity by the evidence of respectable persons. Care should be taken that menial servants attached to offices, petition-writers, etc., are not habitually employed to establish identity.

Unless the registering officer is satisfied that such persons can identify the executing parties in consequence of an acquaintance of some standing, he should require further corroborative evidence.

[125-A. The registering officer shall also require every executant, who is not personally known to himself, to affix in his presence an impression of his left thumb both to the document and to a register in the form given in Appendix No. XXII.

If any executant who is required under this rule to make a thumb impression refuses to comply, the registering officer will endorse a note of such refusal upon the document as in the case of a refusal to sign.

This rule may be relaxed in the case of European ladies and gentlemen and other persons of position regarding whose identification there can be no doubt or room for suspicion.

126. The oath should be administered under section 68 of the Act only when the registering officer doubts the truth of statements made before him—*vide* rule 88 (3).

127. If the executing parties admit execution, they shall be required to state the amount of consideration received by them and as provided in form of second endorsement, the amount, specifying whether it is in full or in part shall be entered in the endorsement.

128. Before registering officers record in endorsement No. II admission of receipt of consideration, they should satisfy themselves by examination of the obligor that the admission is true. If the inquiry results in doubts as to payment having been actually made, although admission of receipt of consideration be acknowledged, a note to the following effect will be added to endorsement II :—

NOTE.—Although receipt of consideration is admitted by the obligor, the registering officer after cross-examination, is not satisfied that payment has actually been made.

¹ Added by notification No. 17, dated the 20th January 1897, *Hyderabad Residency Orders*, 1897, Pt. I, p. 26.

729. Admission of execution having been made by all executing parties and their identity established, the second endorsement in one of the forms of appendix No. XVII shall be recorded, and the document "*admitted to registration.*"

¹[NOTE.—If a deed is executed by more persons than one and the appearance of executing parties is not simultaneous a separate second endorsement must be recorded as each party admits execution and is identified. The executants must not be detained until all are present at one time.

²[129-A. In the case of will or authority to adopt presented after the death of the testator (or donor), the second endorsement shall be in the form of Appendix XVII-A.]

From admission to registration to completion of registration.

130. On a document being admitted to registration, it shall be copied without unnecessary delay in the order of its admission to registration.

131. Errors, erasures, interlineations, etc., shall be copied into the book exactly as they appear in the original document. In the case of mis-spellings or erasures or additions of a single word, a mark thus x shall be made in ink over the defect, with a similar mark in the column of remarks and the word "*sic*" with the initials of the registering officer. In the case of additions and erasures of more than one word, and of interlineations, a mark thus x shall be placed at the beginning and end of the addition, erasure or interlineation, with two corresponding marks and the word addition, erasure or interlineation, attested by the initials of the registering officer shall be entered in the column of remarks opposite the defect,

132. If an error is made in copying, and an erasure, addition, correction or interlineation becomes necessary, the defect shall be initialled by the registering officer, and the words "*error in copying*" be entered opposite the mistake in the column of remarks. In no case may erasure by penknife be resorted to.

133. The document having been copied the registering officer shall then record on it the final certificate of registration (Appendix No. XVIII), which, with previous endorsements, should be at once copied into the margin of the book. After which the registering officer shall authenticate the copy by making the following entry at foot of it and signing the entry :—
" Compared with original and certified to be a true copy.

134. All endorsements on documents shall be made in the registering officer's own handwriting.

After registration.

135. Memoranda issued under sections 64, 65 and 66 shall be in form of Appendix No. XIX.

² Added by notification No. 257, dated the 18th December 1894. *Hyderabad Residency Orders*, 1895, Pt. I, p. 4.

186. When a document has been registered it shall be returned without unnecessary delay to the presenter or to the person (if any) nominated in writing by him to receive it.

187. If the presenter deposit at the office a cover sufficiently stamped to include post office registration fees and addressed to himself, the registering officer shall return the registered document in such cover, filing the post office receipt book in place of the registration receipt.

188. Should a document remain unclaimed for one month* from the date on which certificate of registration or refusal to register was recorded on it it shall be entered on the list of unclaimed documents, Appendix No. XX. This list shall be conspicuously exposed to public view in each office. A document thus entered on the unclaimed list may not be returned until a fee for its custody, at the rate prescribed in the fee table, shall be paid. For instructions as to eventual destruction of unclaimed documents, *vide* rules 87 and 88.

* NOTE.—One clear month is intended.

making them have been allowed an opportunity of being heard either in person or by authorised agent as they may think fit, and the revision of the assessment has been completed, the amendments made in the list shall be authenticated by the signature of the Cantonment Magistrate, who shall at the same time certify that no valid objection has been made to the assessment contained in the list except in the cases in which amendments have been entered therein, and subject to such amendments as may thereafter be duly made, the tax so assessed shall be deemed to be the tax for the year commencing on the 1st day of April next ensuing, or from the beginning of the quarter next following that in which any alteration shall have been made under this rule or rule XI.

2. The list when amended under this rule shall be deposited in the Cantonment Office and shall there be open during office hours to all owners or occupiers of buildings or lands comprised therein, or the agents of such persons, and a public notice that it is so open shall forthwith be published.

(3) The amount of every such arrear, besides being recoverable in the manner hereinafter provided by rule XV, shall, subject to any claim on behalf of His Majesty, be a first charge on the building in respect of which it is payable, and on application made in this behalf to the District Magistrate shall be recoverable by the distress and sale of such property.

XIV. (1) The Cantonment authority

[Hyderabad Residency Orders, 1912, Pt. p. 133.]

No. 50, dated the 5th July 1905.—In exercise of the powers conferred upon him by section 101, (1), (c) and (k) of the Regulation for the better administration of the Hyderabad Residency Bazars, 1895¹, the Resident is pleased to make the following rules regarding the supply of water for purposes of irrigation to gardens in the Residency Bazars:—

These rules shall come into force from 15th August 1905.

In these rules, unless there is anything repugnant in the subject or context:

(1) "Committee" means the Local Fund Committee of the Hyderabad Residency Bazars.

(2) "Chairman" means the Chairman of the said Committee.

(3) "Water" means water supplied from the Residency Bazar Water Works for the purpose of irrigating any garden in the Residency Bazars.

(4) "Water-rate" means the amount payable monthly for water.

(5) "Rate-payer" means any person who has agreed under Rule III to pay water-rate

I. Every application for water shall be addressed to the Chairman in Form I, appended to these rules.

II. On receipt of an application for water, the Chairman shall inform the applicant of:

(a) the cost of laying pipes for the conveyance of water to the garden concerned, and

(b) the water-rate payable in respect of such garden

III. If the applicant consent to pay the charges aforesaid, he shall communicate his consent to the Chairman by a letter in Form II appended to these rules. Such letter shall bear a stamp of the value of eight annas, and shall be deemed to be an agreement binding on the applicant. The applicant shall, together with the letter, forward to the Chairman the sum specified in Rule II (a) above.

IV. On receipt of the letter and sum specified in Rule II (a), the Committee shall cause the pipes to be laid down with as little delay as possible and shall intimate to the applicant the date from which water will be supplied for his garden. Such date shall ordinarily be the 1st or the 16th of the month following that in which the application is received; provided that no water shall be supplied until the applicant shall have deposited with the Chairman the water-rate due for one month if water is supplied from the 1st of any month, or for one and a half months if water is supplied from the 16th of any month.

¹ Printed Vol I, p. 278.

V. After the expiry of one or one-and-a-half months, as the case may be, from the date on which water is first supplied, the water-rate shall be payable monthly in advance on presentation of a bill on behalf of the Committee. In the event of the water-rate not being paid within seven days from the commencement of the month to which it relates, or from the date on which the bill is presented (whichever is later), the Committee shall be at liberty to stop the supply of water to the garden concerned until the water-rate is paid, and in the event of the water-rate not being paid within thirty days of such date as aforesaid to recover the amount by the procedure laid down in Section III of the Regulation for the better administration of the Hyderabad Residency Bazars, 1895.

VI. If the rate-payer wishes the supply of water to be discontinued, he shall give notice in writing to that effect to the Chairman not later than the 7th or 21st of any month, and shall, if he fail to give such notice by such date, be liable for the water-rate for the half month next following the date on which the said notice is received.

VII. The Committee may at its discretion and without assigning any reason for its action refuse any application for water, and may discontinue the supply of water temporarily or permanently; provided that the rate-payer shall not be liable for the payment of water-rate after the date of such discontinuance.

VIII. When the supply of water has been permanently discontinued either by order of the Committee or at the request of the rate-payer, the pipes laid down under Rule IV shall become the property of the rate-payer, who shall be at liberty to dispose of them as he may think fit, and the Committee shall not be liable for the cost of their removal. #

IX. Every case of injury or accident to the pipes laid down for the conveyance of water to the garden of any rate-payer shall be reported, within 24 hours of the occurrence of the injury or accident, by the rate-payer concerned to the Chairman, who shall forthwith cause the pipes to be repaired. If, in the opinion of the Chairman, whose order on this point shall be final, the injury or accident in question was caused by any misconduct or negligence on the part of the rate-payer or of any person employed by the rate-payer, the cost of repairing the pipes shall be charged to the rate-payer, and the repairs shall not be executed until the cost has been paid. In any other case the cost of repairs shall be defrayed by the Local Fund.

X. Every rate-payer shall be supplied, from time to time, with a table stating the days on which, and the hours between which, water will be supplied to his garden, and the Chairman may, at any time, make such alteration

in the said day or hour as he may deem necessary; provided that at least 24 hours' notice of any intended alteration shall be given to the rate-payer.

XI. Any rate-payer who

(a) being supplied with water in respect of any garden, diverts the whole or any portion of such water to any other garden, or uses it for any purpose other than the irrigation of the garden for which it is supplied, or

(b) wantonly wastes or permits the waste of water supplied to him, or

(c) omits to give the notice required by Rule IX, shall, on conviction by a Magistrate, be punishable with a fine which may extend to fifty rupees (H. S. Rs. 50) for each such offence.

XII. The Chairman or any person deputed by him in that behalf may, at any time and without notice, inspect any garden to which water is supplied for any purpose connected with these rules.

Act IV of 1868.

Rules for the disposal of the right of occupancy in Government waste lands.

No. 5822, dated the 4th September 1909.—Under the provisions of section XI of Bombay Act IV of 1868, as in force in the Civil and Military Station of Bangalore, the Hon'ble the Resident in Mysore is pleased to make the following rules for the disposal of the right of occupancy in Government waste lands situated within the limits of the said Civil and Military Station.

1. All applications for the occupancy right of waste lands should be made to the Collector of the Civil and Military Station and should be in writing on plain paper. They must specify clearly the land required

They may be made at any time of the year, but no application can be received except in respect of lands which are actually at the time unoccupied, or have been occupied without proper sanction, or have been formally relinquished though not actually vacated.

2. If the Collector considers that there is no *prima facie* objection to the entertainment of the application, the latter should be referred through the Amildar to the village authorities for report. On receipt of the application, the village authorities should at once enter the same in a Register in Form A appended to these rules, and after due enquiry, should send to the Amildar without delay a memorandum in duplicate in Form B appended hereto. The Amildar should then, in his turn, forward the memorandum to the Collector with his remarks.

3. If, on perusal of the Village Officer's report and the Amildar's remarks thereon, the Collector considers the grant of the occupancy right applied for to be unobjectionable, he shall, unless otherwise ordered by the Resident, cause the occupancy right to be sold by public auction. Notice of such sale shall be issued in English, Tamil, Canarese and Hindustani in Form C appended hereto and exhibited in the Collector's office for at least one month prior to the sale, as well as in some conspicuous place in the village in which the land is situate and also on the land itself. The proposed sale shall also be proclaimed by beat of drum in the village concerned.

4. An upset price may, if the Collector thinks fit, be fixed in respect of every occupancy right to be sold by public auction. Any person may bid at such auction. The occupancy right shall be knocked down to the highest bidder above the upset price, if any, fixed, subject to formal confirmation by the Resident. The purchaser at the auction will be liable to pay the assessment fixed for the land.

5. After the auction has been completed, the Collector shall report the sale to the Resident for confirmation, and pending such confirmation no action should be taken for giving possession of the land or for entering the name of the purchaser in the Register of Revenue holdings. Any objections to or representations regarding such sale should be preferred to the Resident within 30 days from the date of auction. The Collector should arrange to communicate to the parties interested the final orders which may be passed in each case.

6. No appeal shall lie against the decision of the Resident in cases disposed of under these rules.

7. The Resident may, at his discretion, dispose of the occupancy right of any assessed waste land otherwise than by public auction.

3. The expression "nitrate-mixture," as used in these rules, means any preparation other than gunpowder, which is formed by the mechanical mixture of nitrate with any form of carbon or with any carbonaceous substance not possessed of explosive properties, whether sulphur be or be not added to such preparation, and whether such preparation be or be not mechanically mixed with any other non-explosive substance. Definition and sub-division of "nitro-compound" (class 3)

¹ Substituted by notification No. 87, dated the 5th December 1910, *Gazette of India*, 1910, Pt. II, p. 1858.

6. (1) The expression "fulminate," as used in these rules, means any chemical compound or mechanical mixture, whether included in any of the foregoing definitions or not, which, from its great susceptibility to detonation, is suitable for employment in percussion-caps or any other appliance for developing detonation, or which, from its extreme sensibility to explosion and from its great instability (that is to say, readiness to undergo decomposition from very slight exciting causes), is especially dangerous.

(2) Fulminate shall, for the purposes of these rules, be sub-divided as follows, namely:

- (a) Division 1, comprising such compounds as the fulminates of silver and of mercury, and preparations of those substances, such as are used in percussion-caps, and any preparation consisting of a mixture of a chlorate with phosphorus, or certain descriptions of compounds of phosphorus, with or without the addition of carbonaceous matter, and any preparation consisting of a mixture of a chlorate with sulphur, or with sulphuret, with or without carbonaceous matter; and

(4) The expression "safety fuze," as used in these rules, means a fuze for blasting which burns and does not explode, and which does not contain its own means of ignition, and which is of such strength and construction and contains an explosive in such quantity, that the burning of such fuze would not communicate laterally with other like fuzes.

(5) The expression "safety cartridge," as used in these rules,—

- (i) means a cartridge for small arms, the case of which can be extracted from the small-arms after firing, and which is so closed as to prevent any explosion in one cartridge being communicated to other cartridges; and
- (ii) includes a rifle-calibre machine-gun cartridge, if it is as described in clause (i) whether it is for use with a machine-gun having chambers identical with those of rifles or with a machine-gun having special chambers:

Detonators,

Cartridges for small-arms, which are not safety cartridges,
 Fuzes for blasting, which are not safety fuzes,
 Fuzes for shells, and,
 Tubes for firing explosives,
 containing their own means of ignition.

Explanation.—The expression “ammunition containing its own means of ignition” means ammunition having an arrangement, whether attached to or forming part of the ammunition, which is adapted to explode or fire the ammunition by friction or percussion.

8. Fireworks shall, for the purposes of these rules, be sub-divided as ^{Sub-division of} “firework” (class 7). follows, namely :

- (1) Division 1, comprising fire-work compositions, that is to say,—

11. The following general rules shall be observed with respect to the conveyance of explosives :—

(i) No explosive shall be conveyed from place to place unless packed in the manner provided for in the foregoing rules.

(ii) There shall not be conveyed in any carriage which is being used for the conveyance of an explosive, any explosive of a different class and division, of whatsoever nature, which contains its own means of ignition, unless it is sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

(iii) Except in the case of small consignments carried by railway which may be unloaded at any time explosives shall be loaded or unloaded only between sunrise and sunset. For the purposes of this rule no consignment of more than half a wagon-load booked to one station shall be deemed to be a small consignment.

(iv) Whilst the explosive is being loaded on or unloaded out of any carriage no fire or artificial light, or any article which is liable to cause or communicate fire or explosion [such as charcoal, lucifer-matches, articles for striking a light, petroleum to which the Indian Petroleum Act, 1899 (VIII of 1899) or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies, or any spirit or oil or substance that gives forth an inflammable vapour at a temperature below 100° Fahrenheit] shall be, or shall be allowed to be, brought, had or used dangerously near to such carriage, and no smoking shall be allowed in, on, or dangerously near to, the same :

Provided that when the use of a light for the purposes of such loading or unloading is unavoidable, a lamp of such construction, position, or character as not to cause any danger from fire or explosion may be used ; and no person while handling any explosive (except an explosive of division 1, class 6, if packed in accordance with the packing rules) shall wear boots or shoes with iron or steel nails, heels or tips.

(v) In the loading or unloading of any explosive, the casks and packages containing the same shall be passed from hand to hand and not rolled upon the ground; they shall not be thrown or dropped down, but shall be carefully deposited and stowed.

(vi) The explosive shall not be conveyed except in the interior of a carriage so enclosed on all sides with wood or metal, as effectually to protect the explosive against accident by fire from without. If the explosive cannot be so secured, it shall be completely covered with painted cloth, tarpaulin, or other suitable material so as to effectually protect it against communication of fire.

(vii) There shall not be any iron or steel in the interior of the portion of the carriage with which the case containing the explosive is or may come in contact, unless the same is effectually covered with leather, wood, cloth, or other suitable material.

(viii) In the stowing of the explosive, due precautions shall be taken by means of a partition or otherwise and by careful stowing to secure such explosive from being brought into contact with, or endangered by, any other article or substance conveyed in such carriage which is liable to cause fire or explosion; and if the explosive is dangerously affected by water, due precautions shall be taken to exclude water from coming into contact with such explosive.

(ix) The amount of the explosives conveyed in any one carriage at any one time shall not exceed 2,000 lbs unless the carriage be so enclosed on all sides with wood or metal, as effectually to protect the explosive against accident by fire from without, in which case the amount of the explosives conveyed shall not exceed the following:*

	Tons.
In any one carriage on a railway	10
In any one other carriage	2

(x) Nothing in the foregoing rules (except rule i) shall apply to any explosive of the 1st division of the 6th (ammunition) class:

Provided that all due precautions are taken for the prevention of accidents.

beforehand to the person in charge of such carriage: and all due precautions are taken for the prevention of accidents by fire or explosion:

Provided that there shall not be conveyed in any such carriage any explosive of the 5th (fulminate) class or any explosive of the 3rd division of the 6th (ammunition) class or of the 1st division of the 7th (firework) class, except detonators packed according to Rule 9 to the number of 200.

Provided that the amount of explosive of the 5th (fulminate) class in the detonators shall in no case exceed in the aggregate 3 oz. (a certificate to this effect being given by the Agent of the Company by whom the detonators are tendered for transport).

Provided also that no other explosive is carried in the same compartment.

(ii) With respect to the conveyance by carriage of explosives of the 5th (fulminate) class, or of the 3rd division of the 6th (ammunition) class, or of the 1st division of the 7th (firework) class, or of larger quantities than 5 lbs. of any other explosive, the following regulations shall be observed:

- (1) The person in charge of the carriage shall not drive or conduct the same in a dangerous or reckless manner, and shall take all due precautions to avoid fire and explosion, and no person shall do any act or thing in relation to the explosive which tends to cause fire or explosion, and is not reasonably necessary for the conveyance of the explosive or for work immediately connected with such conveyance; and a person who is intoxicated shall not have charge of any carriage conveying explosive and shall not be permitted to be in, or on, or attending the same.
- (2) A person shall not forward to any warehouseman or carrier a consignment of explosive, unless he has given notice to such warehouseman or carrier beforehand, stating the name and quantity of the explosive proposed to be conveyed, and the name and address of the proposed consignee, and has had an intimation that the warehouseman or carrier is prepared to receive the consignment and a warehouseman or carrier shall not make such an intimation nor receive such consignment, unless he is prepared to receive it and forthwith to despatch the same, or to deposit it in a magazine or at a place at which a person is licensed to possess the same.
- (3) The carriage conveying the explosive shall be in charge of, and constantly attended by, some competent person, or by a sufficient number of competent persons, and such persons shall not, if the amount of the explosive conveyed exceed 100 lbs. stop or delay for a longer time than may be reasonably necessary, or stop

unnecessarily, at any place where such stopping would be attended with special public danger.

(iii) No explosive belonging to class 1 (gunpowder class), class 2 (nitrate-mixture class), class 3 (nitro-compound class), class 4 (chlorate mixture class) or class 5 (fulminate class), shall be carried, otherwise than by rail, across any railway bridge over which reasonable facilities for the conveyance thereof by rail are afforded by the Railway Administration:

Provided that this prohibition shall not apply in respect of quantities of explosives of class 1 (gunpowder class) or class 3 (nitro-compound class) not exceeding 5 lbs. in weight.

13. The following rules shall be observed with respect to the conveyance of explosives by public railways:—

(i) No person shall send for carriage upon any railway any consignment of an explosive, unless he has given to the officer in charge of the railway station previous notice in writing which, at the option of the Railway Administration, may extend to 48 hours, of his intention to send such consignment, and stating the true name, description, quantity, and mode of packing of the explosive proposed to be conveyed, and his own name and address and also the name and address of the proposed consignee, and unless he has had an intimation in writing from an authorised officer of the railway that such consignment will be received.

(ii) No explosive which a Railway Administration shall, by any notice or regulation for the time being in force, notify that they will not receive, shall be brought, sent, or forwarded to or upon any railway of the said Railway Administration.

(iii) Consignments of explosives shall be sent to the forwarding station and shall be received by the railway servants only at such times between sunrise and sunset as the Railway Administration may appoint; and every package containing any explosive proposed to be conveyed on any railway shall immediately on arrival at the station be unloaded and placed in a safe place under the special direction of the officer in charge of the station.

All gunpowder under despatch or receipt by a Government arsenal, dépôt, or factory shall be loaded or unloaded in the railway vans by Government servants employed in such arsenal, dépôt, or factory. In each van used by the railway for the transport of gunpowder the packages of gunpowder shall be secured in such a way as to prevent concussion when the train is in motion.

(iv) An explosive shall be removed by the consignee from the receiving station during the twelve hours of daylight after arrival: if this condition is not strictly complied with, the Railway Administration may return the

consignment to the consignor at his risk and expense. And such packages shall in the meanwhile be kept as far away from the station buildings as possible, in the wagon they were conveyed in, or, if unloaded, shall be completely covered with tarpaulins or other suitable material, and, if necessary, shall be protected by a police guard.

(v) The Railway Administration may refuse to receive any packages which they suspect to contain any explosive packed or sent in contravention of these regulations. And in case any package, which the Railway Administration suspect, shall be upon any railway, the Railway Administration may open, or require to be opened, such package to ascertain the fact at the risk and expense of the consignor, and may return the explosive contained in the package to the consignor at his risk and expense, keeping the packages pending such return, in the manner prescribed in the preceding rule.

(vi) Subject to the exception provided for in clause (e), no explosive shall be conveyed by passenger-train except of the kinds and in the manner herein-after specified in this rule :

- (a) Safety cartridges and percussion-caps and safety-fuses (for blasting) also fog-signals for railway use which may be conveyed in ordinary wagons or carriages

Provided that no detonators are carried in the same compartment.

- (c) Detonators packed according to rule 9 may be carried to the number of 200.

Provided that in no case the amount of fulminate of mercury in the package or packages containing the detonators exceeds in the aggregate 3 oz. (a certificate to this effect being given by the Company, firm, or person tendering the detonators for transport or by its or his agent):

Provided also that no other explosive is carried in the same compartment.

- (d) Sporting gunpowder or non-safety cartridges packed in double cases as before provided, so long as the gunpowder is contained in one-pound tin canisters packed in a stout wooden case with an outer covering of tin or zinc completely spark-proof, or in metal-lined cases of a pattern approved by the Railway Administration. But no outer case shall contain more than 25 lbs. of gunpowder and the total consignment of gunpowder or non-safety cartridges by one train shall not exceed 80 lbs.

(e) Explosives may be carried by mixed trains on any line on which goods trains are not running, subject to the conditions that they are loaded in properly constructed powder vans; that not more than one powder van containing explosives is forwarded at any one time by a mixed train; that there are not less than three vehicles between the powder van and either the engine or the passenger coaches; that the powder van is close-coupled to the adjoining vehicles: and that directly a powder van containing explosives arrives at a section on which goods trains are running it is detached from the mixed train.

(vii) Not more than five carriages containing explosives shall be loaded or unloaded at any railway station, or be conveyed by any one train at any one time; and the quantity of explosive to be contained in any one carriage shall not exceed two-thirds of the normal load, unless the carriages shall be specially built and approved by the Railway Board for the conveyance of explosives. But nothing in this clause shall be held to apply to separate consignments of safety cartridges for small-arms.

(viii) There shall not be conveyed in the same carriage with any explosive any lucifer or other matches, fuzes, pipelights, acids, naphtha, paraffin, petroleum to which the Indian Petroleum Act, 1899 (VIII of 1899), or any other Act for the time being in force regarding the importation, possession, and transport of petroleum, applies or any other volatile spirit substance liable to give off an inflammable vapour or liable to spontaneous ignition, or to cause or communicate fire or explosion.

(ix) The consignor shall attach to the consignment note a certificate or (provided the original is produced for verification) copy of a certificate,¹ [signed by the Chief Inspector of Explosives or an Inspector of Explosives] that the explosive, if it is an explosive of class 3 or 4, is of the standard purity; and further, in the case of dynamite, and all nitro-glycerine compounds, that there are no signs of exuded nitro-glycerine or of liquefaction. The consignor shall also certify that the explosive has been packed in accordance with the packing rules in force in England or in British India or in the Civil and Military Station of Bangalore.

(x) In the case of explosives under classes 3 and 4 the outer packages shall be marked with the date of the manufacture of the explosives. The above mentioned certificate shall contain sufficient information to admit of all packages being easily recognised.

Provided that, if the packages of explosive are in rectangular form and are properly secured so as to prevent movement during transit, they may be stowed in any number of layers not exceeding five, and the gross load in any one wagon shall not exceed 5 tons.

(xiii) No explosive of the 5th (fulminate) class or of the 3rd division of the 6th (ammunition) class, or of the 7th (firework) class shall be carried in the same train with any explosive not of the class and division to which it belongs, unless it be sufficiently separated therefrom to prevent any fire or explosion which may take place in one such explosive being communicated to another.

(xiv) Wagons used for the carriage of explosives shall be examined to see that they are sparkproof, and have been cleaned out before they are loaded. Hair, cloth, hides, or other suitable material shall be spread on the floor of the wagon and between each layer of packages except when the packages are covered with gunny or felt, or contain safety cartridges for small-arms packed in tin-lined service-pattern boxes.

(xv) Wagons containing explosives shall be loaded and unloaded on sidings distant as far as possible from the station buildings.

(xvi) Packages containing explosives other than those referred to in rule 13(xii) shall not be stored in more than three layers one above the other. But if the packages are in rectangular form and of uniform size (provided they are double packages and are so secured as to prevent movement during transit) they may be packed in five layers one above the other. But in the case of safety cartridges, for small-arms packed in tin-lined service-pattern boxes, there is no restriction. Subject to the provisions of rule 11 (iii), the loading and unloading of explosives when once begun shall be diligently proceeded with until the same is completed.

This precaution is not necessary with wagons specially constructed for the carriage of explosives. The speed of these movements shall be restricted to 5 miles an hour; they shall be superintended by a duly authorised officer, who shall be held responsible for the observance of these orders. Flying shunts are strictly prohibited.

(xviii) Wagons containing explosives shall be placed at the end of the train away from the locomotive, and shall be close coupled to one another as well as to the adjoining wagons, and shall be preceded and followed by three wagons not loaded with explosives or other traffic of an inflammable nature.

(xix) If the wagons employed in the transport of explosives are provided with brakes, other than iron brakes, the brakes thereon shall on no account be worked while the wagons are running with a train, nor shall brakes, other than iron brakes, on vehicles immediately adjoining such wagons, be worked while such wagons are so running.

(xx) Wagons shall in every case be locked when loaded with explosives.

(xxi) All operations connected with the transshipment of explosives at junction stations shall take place during daylight.

9. All tools and implements used in any repairs to or in any part of the magazine shall be made only of wood or copper or brass or some soft metal or material, or shall be covered with some safe and suitable material.
10. No fires, lights or lucifer matches, and no substance or article which is likely to cause explosion or fire, shall be permitted to be at any time in the magazine.
11. 12. No person shall smoke in any part of the magazine.

13. (1) The licensee shall not employ any vessel, barge or craft to carry an explosive to or from the magazine unless the cabin, hold or other part of the vessel, barge or craft in which the explosive is or is to be carried—

15 A person under the age of fourteen years shall not be employed in or enter the magazine, except in the presence and under the supervision of some grown-up person.

16. In the case of the magazine being approachable at low water by carriages, the words "vessel, barge, or craft," in Nos. 13 and 14 of these conditions, shall be taken to include a carriage.

17. (1) Two or more descriptions of explosives, which may lawfully be possessed in a licensed magazine, may be possessed in the same magazine, if they are separated from each other by an intervening partition of such substance and character, or by such intervening space, as will effectually prevent explosion or fire in one compartment from extending to another compartment :

(4) In column 4 should be entered the gross income accruing and arising during the year ending on the day on which the person's accounts have been last made up, or if the person's accounts have not been made up within the year ending on the 31st day of March in the year immediately preceding that for which the assessment is to be made, then during the year ending on the 31st day of March. In this column, the period during which the income from each source has been derived should be specified.

(5) Against the gross receipts, no deductions should be made on account of disbursements or expenses not wholly and exclusively incurred in respect of the profits returned; nor on account of any public or local rates, cesses or taxes, nor on account of the maintenance of the assessee himself or his family or domestic establishment.

(6) A deduction for the purpose of securing a deferred annuity or a provision for wife or children or a payment to a Life Insurance Company should not be excluded from column 4, but should be included in the column headed

¹Substituted by notification No. 5, dated the 3rd February 1913 *Gazette of India*, 1913, Pt. II, p. 295.

"Total deductions" and supported in the insurance case by a receipt for such deduction or payment.

Examples of deductions from the gross receipts which are admissible.

(a) In the case of Trades or Professions.

(1) Sums actually expended in the repairs of implements, utensils or articles used solely for the purpose of the profession or trade.

(2) Sums expended in insuring or keeping insured the buildings, machinery and plant, implements and stock used for the purpose of the profession or trade. The deduction is confined to the premia (including subscriptions, etc.) paid during the year upon the income accruing in which the tax is assessed.

(3) The amount of rent paid for any premises exclusively used for such profession or trade.

N.B.—Where they are not exclusively used for such profession or trade, only a fair proportion of such rent is admissible for deduction.

(4) The amount actually expended on repairs and renewals of such premises, if the repairs and renewals are at the cost of the assessee. The assessee must be prepared to prove the amount spent by means of vouchers.

(5) The amount expended as salaries of persons employed solely and exclusively in the profession or trade. When a firm has transactions both in and out of India and realises profit in both by means of an establishment maintained in India in common for both, only a proportionate deduction is allowed (the exact proportion of which will be determined by the assessing officer in each case).

(6) The amount of any loss in trade or of the stock in trade actually written off during the year. In cases where there is loss in one trade or profession and profit in another, the loss may be set off against the profits, and any excess loss deducted. So also loss under any one part of the schedule may be set off against income under any other part.

(7) The amount of any bad debts for the first time ascertained and written off the accounts as such during the year. (The debts should be written off in the personal ledger of each debtor by adjustment to both credit and debit sides.)

(8) Interest paid on borrowed capital. The assessee may be required to satisfy the assessing officer that only capital actually employed in his trade is taken into account in this connection.

N.B.—When the whole capital is not exclusively employed in the trade, only a fair proportion of the interest paid shall be deducted.

(9) Such miscellaneous and contingent charges as commission or discount—

postage, telegraphic, law, advertising and stationery charges.
shipping, freight, railway and other transit charges.

N.B.—The nature of the charge and the amount incurred under each should be distinctly demonstrable.

(10) Payments actually made to Insurance Companies for the purpose of securing a deferred annuity or a provision for wife or children or a payment to a Life Insurance Company but not those set aside to form an Insurance Fund.

(11) Charges incurred in providing tiffin for assistants, clerks and constituents.

(12) Amount actually expended from the profits of the year on ordinary maintenance, repair of machinery and plant.

(13) Such amount as may be actually set apart from the profits of the year for depreciation up to a limit of 10 per cent. on the value of the machinery and plant.

N.B.—Care should be taken to see that the deduction allowed represents the repairs and depreciation of only one year, *i.e.*, the year the income of which is assessed.

(b) In cases of houses owned and let by the owner for rent.

(1) Sums expended in insuring or keeping insured such houses, the deduction being confined only to the premia (including subscriptions, etc.) paid during the year upon the income accruing in which the tax is assessed.

(2) Actual expenditure during the year on repairs and renewal of houses, if such repairs are at the cost of the assessee, but not depreciation in the value of such buildings.

(3) Sums expended in collecting the rent not exceeding 6 per cent. of the gross rental. The deduction applies only to direct payments.

(4) Any interest payable to a mortgagee not in possession, whether the interest has or has not been actually paid during the year.

(5) Any rent paid on account of such houses.

(c) In cases of houses occupied by the owner for dwelling purposes under section 24 of Act II of 1886.

(1) When buildings are occupied by their owners as dwelling houses, five-sixths of the estimated annual rent thereof shall be added to the net income under Part IV and the sum total assessed, provided that, where five-sixths of the annual rental value exceeds 10 per cent. of the assessee's income

from all sources whether taxable or not, the excess shall be deducted from the five-sixths of the rental value and the remainder added to the net income under Part IV.

(2) Houses reserved for the use of the owner, but not occupied by him during the period which serves as the basis of the assessment.

N. B.—The term 'renewal' as used in the return refers only to such works as are intended to put the building into the same state as it was in when it was originally constructed, while any additional accommodation provided or any material alteration to the plan of the building shall be treated as an addition.

When a portion of the house is occupied by the owner and the remainder let out on hire, the portions should be treated as if they were separate houses and deductions allowed accordingly, *i.e.*, either a sixth of the annual rent value or actual expenditure on repairs and renewals, as the case may be.

Examples of Deduction from the gross receipts which are not admissible.

- (1) Amounts expended by vakils on the purchase of law books and stationery.
- (2) Amounts set apart to form a renewal fund in cases where allowance is made for repairs under the rules
- (3) Amount set apart as a reserve fund out of profit to meet anticipated or contingent losses.

The book shall not be in any way defaced or mutilated and the loss of it will entail immediate suspension of the brewer's license and if, on enquiry, the explanation of the brewer is unsatisfactory, his license may be cancelled.

11. The brewer shall enter in the proper columns at least 24 hours before beginning to mash malt or grain or to dissolve sugar the day and hour of brewing with the date and hour of making the entry, and at least six hours before the time entered for mashing or dissolving he shall enter separately in the proper columns the quantities of malt or unmalted corn and of sugar or glucose to be used and the hour when all the worts will be drawn off the grains in the mash-tun. He shall also enter in the appropriate columns the dip and gravity of the worts collected, the number and description of the vessel or vessels in which they have been collected and the date and hour of the entry. Such entry shall be made within one hour after the collection has been completed or, if the worts be not collected before 6 P. M., the entry shall be made before 8 next morning. If fermentation has started before the requisite entry has been made, the brewer shall enter the true original gravity of the worts. Each entry shall be initialled by the brewer or his agent.

12. Beer shall be brewed from good materials and its quality shall be such as to satisfy the Resident. No beer shall be brewed which does not contain at least two bushels of malt to every hogshead, and the original specific gravity of the wort shall in no case exceed 1073°. Nothing shall be added to beer after it has been racked and removed to a beer store, except finings or other material approved by the Collector. Beer in beer stores must not be diluted and any beer found in store which has been either diluted or in any way adulterated shall be liable to forfeiture. The forfeiture of the beer will not relieve the brewer from the penalty of fine or cancellation of license under rule 21.

13. Officers surveying breweries shall, on every day on which they visit a brewery, make a complete survey of the whole of the brewery plant showing in the proper columns in a survey book, the form of which will be prescribed by the Resident, the condition of each vessel and the dip and gravity of each vessel containing fermenting wort unless such wort shall be fining, when, except in case of suspicion of fraudulent addition of saccharine matter or of addition or removal of wort, the surface need not be broken. A copy of each survey will be made in a similar book and left at the brewery for the information of the brewer.

14. Each brewer shall keep a stock account in such form as may be prescribed by the Resident in which he shall daily enter the quantity of beer actually brewed by him, the allowance for wastage at 5 per cent, the net quantity, the quantity issued and the person to whom issued. Each issue to any place within the Civil and Military Station of Bangalore shall be accompanied by a permit, the counterfoil of which shall be retained in the permit book. Permits shall be consecutively numbered, and before any permit book is taken into use it shall be examined by the Surveying Officer who will certify as to its correctness. No brewer is allowed to issue permits for consignments of beer to be exported to places outside the Civil and Military Station of Bangalore. Application for such permits should be made to the Superintendent of Excise who, if he sees no reason to the contrary, will grant the permit which must accompany the consignment and send a letter of advice to the brewer. All such letters of advice and counterfoils of permits issued by the brewer must be retained for at least a year. The stock book will be checked at least once in each week by the Surveying Officer, the quantities brought into it being compared with those entered in his survey book and the issues with the counterfoils of the permits issued, with the letters of advice from the Superintendent of Excise, if any, and with the certificates granted by the officers of the department to whom beer has been issued on the public service.

15. No entry in any of the books kept by a brewer under these rules shall be erased or overwritten. Should it be necessary to correct any entry, a line should be drawn through the incorrect entry in such a manner as to leave it distinctly visible and the amended entry should be inserted above it. Every correction shall be initialled by the person making it at the time and by the Surveying Officer in his next inspection of the book. Merely clerical or arithmetical errors need not be specially noticed, but in the case of errors, which cannot be so classed, the explanation of the brewer should be obtained and submitted to the Superintendent of Excise with the Surveying Officer's remarks.

16. Samples of wort in any stage of fermentation or of stored beer may be taken for analysis without payment by the Surveying Officer or any other officer authorized to inspect breweries. Samples of wort during fermentation should be taken by the Surveying Officer at least once in each quarter in accordance with such instructions as the Resident may issue and the Excise Superintendent should have them analysed. On any other occasion on which samples are taken either of wort or beer, the officer taking them should submit a special report through the Superintendent of Excise

to the Collector explaining the reasons for sampling and the nature of the analysis required. Samples of brewing materials will only be taken if called for by the Collector. When however there is a large discrepancy between the quantity of malt or unmalted corn entered in the brewing book and that of the grains in the mash-tun, a sample of the grain should be taken and at once sent for analysis, together with a report giving a copy of the entry in the brewing book, the dip of the grains in the mash-tun, the quantity represented by the dip and the percentage of increase or decrease. On this report and after examination of the sample, the Collector will pass such orders as he thinks fit.

17. The stock of beer in every brewery will be taken at least twice in each year by the Superintendent of Excise or such other officer as the Collector may direct and the results reported to the Collector. Stock may be taken at other times by the Surveying Officer or other officer superior to him and shall be taken at once if there is any suspicion of fraudulent practices. On each such occasion the officer taking stock will immediately report the result to the Collector with his reasons for taking stock. The explanation of the brewer for any excess or deficiency exceeding one per cent. found in stock should be obtained before the report is submitted. The Collector will pass orders whether any, and if so, how much duty shall be claimed in regard to such excess or deficiency.

18. The Superintendent of Excise after careful examination of all the books will submit to the Collector at the end of each quarter an account showing the quantity of beer actually brewed, less five per cent allowed for wastage, and the duty thereon calculated at the rate of [three annas] ¹ per imperial gallon or at such other rate as may be prescribed by the Government. On this account the Collector will pass orders as to the amount of duty to be paid. Beer issued to the Supply and Transport Department on the public service, for which certificates have been granted by the officers of that department, should be deducted from the net quantity brewed during the quarter before calculating the duty.

19. The brewer shall pay the duty demanded into the Resident's Treasury within five days of the receipt of advice of its amount. Interest at 6 per cent. per annum will be calculated upon all sums overdue at the date of payment. The Treasury Officer will grant a receipt to the brewer for all such payments and send a letter of advice to the Superintendent of Excise who will notify the payment to the Collector.

¹ Substituted by notification No. 18, dated the 20th February 1910. *Gazette of India*, 1910, Pt II, p 339.

20. If a brewer objects to the amount of duty demanded from him he may move the Collector to revise the charge. But no revision will be undertaken unless and until all sums demanded under rule 18 have been paid. In the event of the original charge being found incorrect any excess levied from him will be refunded to the brewer, and if the amount claimed from him is found to be less than that actually due he will be called upon to pay the difference at once into the Resident's Treasury. The brewery buildings shall be security for any duty which may become overdue.

21. In case of any breach of these rules or of the conditions of the license either by the brewer or by any person in his employment, it shall be competent for the Collector to impose a fine not exceeding Rs. 50 for each such breach or to suspend or recommend the cancellation of the license.

22. The imposition of a fine or the suspension or cancellation of the license under the last preceding rule shall not be held to prevent the prosecution of any person for any offence which he may commit against the provisions of the Excise Act XII of 1896 or other law for the time being in force. If on such prosecution before a Magistrate a brewer be convicted, it shall be lawful for the Collector to declare his license forfeited.

23. On a date to be fixed by the Collector, subsequent to the date on which these rules come into force, stock will be taken at all existing breweries. Duty, at the rate for the time being in force, will be claimed on all beer then found, less a five per cent allowance for wastage, and a date or dates will be fixed by which all the duty so claimed must be paid into the Resident's Treasury.

24. Brewers shall be bound by all additional rules for the control of breweries which may hereafter be prescribed under the existing excise law or under any law which may hereafter be enacted and by all special orders issued by the Resident with regard to individual breweries and shall cause all persons employed by them in their breweries to obey all such rules.

4. The Collector may sell by auction the right to hold any of the licenses mentioned in Rule 3 in respect of which fixed fees are not payable for any period as may from time to time be fixed by the Resident. The terms and conditions of the sale and of the grant and issue of licenses shall be as follows :—

i. Each bidder at the auction shall, before bidding, deposit the sum of Rs. 50 in the Resident's Treasury and show the Treasury receipt to the officer conducting the sale. The shops shall, subject to the provisions of the next succeeding clause, be knocked down to the highest bidder above the upset price, subject to formal confirmation by the Collector. Such formal confirmation shall, unless revised by the Resident for special reasons, be tantamount to an acceptance of the bid and shall be necessary whether the sale be held by the Collector himself or by any other officer deputed by him. Parties intending to bid must attend either in person or by duly accredited agents, who should produce a power-of-attorney in token thereof.

ii. It shall be within the discretion of the officer conducting the sale to decline to accept any bid or deposit if, for any sufficient reason, he considers such acceptance to be undesirable.

iii. As soon as the auction is completed, the deposit made by each unsuccessful bidder shall be returned to him at once on his producing the receipt of the Treasury Officer duly endorsed by the Collector for refund. As the auction proceeds, the person whose bid is accepted for each shop shall at once deposit in the Resident's Treasury a sum equal to half a month's rent for that shop in addition to the deposit required under clause i. Should he fail to do this, the deposit made by him under clause i shall be forfeited, the shop shall at once be put up again for sale on the above conditions, and he shall be debarred from bidding again for the same or any other shop.

iv. Persons to whom shops have been knocked down, and who have made deposits as provided in clause iii shall also, within seven days from the date of auction, deposit in the Resident's Treasury such further sum as with the former deposits will make up an amount equal to two months' rent of each shop knocked down to them, and shall take out licenses on the conditions hereinafter set forth.

v. If on enquiry subsequent to sale, but before final confirmation thereof, the purchaser shall be found to be of doubtful solvency, he may be required to deposit in the Resident's Treasury twice the amount prescribed under clause iv, or to provide two sureties to execute a security bond for the due payment of all moneys that may become due by him under the terms of the contract. All expenses attendant upon this proceeding shall be borne by the purchaser.

vi. On the failure of any person to make deposit under clause iv, or to take out a license as aforesaid, or to comply, if required to do so, with a requisition under clause v, the deposits made under clauses i and iii shall be forfeited, and the shop or shops re-sold or otherwise disposed of at the discretion of the Collector.

vii. Re-sale effected under clause vi shall be at the risk of the defaulting bidder, who shall forfeit any gain that may ensue owing to a rise in price, and in the event of loss by re-sale, shall make good the deficiency that may be occasioned through his default. In the latter case the forfeited deposits shall be deducted from the loss arising from the re-sale and the remainder, if any, shall be recovered from the bidder in the same manner as if it were an arrear of land revenue. Should, however, the forfeited deposits be greater than the loss by re-sale, the whole of such deposits shall be credited to Government. The defaulting bidder shall be similarly liable if the privilege be disposed of otherwise than by re-sale and such disposal results in loss to Government.

viii. A purchaser at an auction sale or re-sale shall not be permitted to sell, transfer or sub-let the right he has acquired or any interest therein without the consent of the Collector, which will only be given if the applicant is prepared to forfeit his deposit already made; nor shall he appoint any person to act as his agent in the management of the shop without the Collector's previous approval.

ix. In case of any breach of the conditions of the license, either by the purchaser or by any person in his employment, it shall be competent to the Collector to impose a fine not exceeding Rs. 50 for every such breach of the conditions of the license, or to declare the money deposited with him forfeited and to cancel and re-sell the license at the purchaser's risk, and all loss caused thereby shall be made good by him.

The Superintendent of Excise is also competent to impose a fine up to Rs. 20 for every such breach of the conditions of the license, which has not been dealt with by the Collector.

x. The imposition of a fine or the forfeiture of deposit, or the cancellation of the license under the last preceding clause shall not be held to prevent the prosecution of the purchaser or any of his servants for any offence which may be committed against the Excise Laws or Rules in force.

xi. If it comes to the knowledge of the Collector that the purchaser fails to open his shop, or to carry on his business with due care and attention, or that he has been convicted of an offence under the Indian Penal Code, or under the Excise Laws or Rules, it shall be lawful to the Collector to cancel his license, and to re-sell or otherwise dispose of the privilege at the purchaser's risk.

xii. The purchaser shall pay the amount, for which the privilege above described has been purchased, into the Resident's Treasury in equal monthly instalments on or before the 20th of each month commencing from the 1st of the month in which the license comes into force. If the deposit made by him under clause iii be in cash, it will be taken in payment of the instalments due on the last two months of the period of the lease. Failing payment by the 20th of the month, the Collector may, if he considers it sufficient, impose a fine according to the marginally noted scale ;*

	Rs.	
* In khists under Rs. 50	1	or may at once proceed to recover the arrears
" from 50 to 100	2	in the manner prescribed by law. If the
" " 100 to 250	5	instalment has not been paid by the 5th of
" " 250 to 500	10	the following month the Collector may
" " 500 to 750	15	suspend or cancel the license and issue
" " 750 to 1,000	20	notice of re-sale, and may re-sell the license

on the date fixed with effect from the date of its issue to the new purchaser. In that case the deposit shall be forfeited, and if it should fall short of the arrears due and the loss, if any, caused by the suspension or re-sale, the purchaser shall be responsible for the difference which may be recovered by the Collector in the manner prescribed by law. If the Collector does not re-sell the shop he may make such other arrangements as may appear advisable for the remainder of the lease, in which case he will serve a notice upon the defaulting purchaser detailing the nature of the arrangements made. No remission or abatement of the rent shall, on any account whatever, be claimable by the purchaser.

xiii. The purchaser of the shop shall be liable to the penalties prescribed for breaches of the conditions set forth in the prescribed form of license though a formal license may not have been issued to him.

5. Unless otherwise provided for, all licenses granted under these rules shall, so far as they are generally applicable, be subject to the following conditions :—

i. The possession or sale of licit ^{Liquor}_{intoxicating drugs} shall be limited to, and made in, the building specified in the license granted and not elsewhere on any pretext whatever.

ii. The licensee shall be bound by any additional rules which may be prescribed under the Excise Law now in force, or which may hereafter be enacted, and shall, on requisition by the Collector or by any officer duly authorised by the Collector, deliver up his license for amendment or for the issue of a fresh license accordingly.

iii. No liquor or intoxicating drugs other than that to which the license relates shall be kept or sold in the building covered by the license.

iv. The licensee shall, unless specially exempted by the Collector, keep a true account in ink in such form as may be prescribed by the Resident, showing the quantity (and, in the case of arrack, the strength) of the liquor or intoxicating drugs received in his shop, the quantity (and, in the case of arrack, the strength) of the liquor or intoxicating drugs sold, the prices at which they are sold, and the quantity remaining unsold each day. Such account shall be produced for the inspection of the Collector, or any Excise Officer not below the rank of Sub-Inspector or any police officer not below the rank of Inspector. An inspection note-book with the pages numbered consecutively shall also be maintained intact at each shop at the cost of the licensee so that officers who may inspect the shop may enter their remarks therein. This note-book shall be handed over to the Collector or any officer authorized by him to receive it, whenever it is demanded. The licensee shall furnish such other returns and information as may from time to time be required by the Collector or the Superintendent of Excise.

v. All ^{liquor}_{intoxicating drugs} sold or kept for sale shall be of good quality and unadulterated. Nothing shall be added to ^{liquor either to increase their intoxicating power}_{intoxicating drugs either to increase their intoxicating power or for any other purpose}. All officers authorised to inspect shops (*vide* condition 5 (iv) *supra*) are authorised to detain any ^{liquor}_{intoxicating drug} found unfit for consumption or use or which they may believe to have been tampered with, and the Superintendent of Excise is empowered to destroy such as are found unfit for consumption or use.

vi. The license may at any time be withdrawn by the Collector on giving one month's notice. The Collector may also direct that the shop shall be temporarily closed on the grounds of the police administration or expediency. No remission or compensation shall be claimed if it is found necessary to enforce this latter condition.

vii. The licensee shall have his license framed and glazed and shall place it in a conspicuous place on the premises licensed.

viii. The licensee shall fix in a conspicuous part of the front of his shop a signboard on which his name as well as that of the vendor, the ^{liquor}_{intoxicating drugs} he is licensed to sell and the number of his license shall be legibly inscribed in English and the vernacular language of the locality in which the shop is situated.

ix. The licensee shall prevent all drunkenness or disorder or gaming within his shop. Entertainments of any kind in shops are also strictly

prohibited. The licensee shall not harbour robbers, thieves or riotous persons, neither shall he harbour or conceal soldiers, knowing or having reason to believe such soldiers to be deserters, but shall give information to the nearest Magistrate or Police Officer as to any such persons who may resort to his shop. Neither shall he permit prostitutes or persons of notoriously bad character to meet or remain in his shop.

x. The sale or transport of ^{liquor}_{intoxicating drugs} by persons below the age of fourteen or by persons suffering from leprosy or any contagious disease, or the employment of such persons in the shops for the sale of same is prohibited. The Collector may, where necessary, call for the names of all persons employed or proposed to be employed in shops and forbid the sale of ^{liquor}_{intoxicating drugs} by any person of whom he may disapprove.

xi. Should the licensee hold more than one kind of license for the sale of ^{liquor}_{intoxicating drugs} on the same premises, he shall keep his account of transactions under each license separately.

6. All licenses granted under these rules for the vend of spirits or fermented liquors to be consumed on the premises, or for the vend of intoxicating drugs, shall be subject to the following conditions :—

i. The licensee shall not have any pecuniary dealings of any kind whatever with any of the excise or revenue officials.

ii. Except as provided in hotel, railway refreshment room and special bar licenses, the licensee of any shop or tavern shall not open his shop before sunrise nor keep it open after 9 P.M., without special permission. The fixed hours in any license granted under these rules may be extended on a special permit to be obtained from the Collector or the Superintendent of Excise on payment of a fee of Rs. 2 for the first hour and of Re. 1 for every additional hour or fraction of an hour to which the time is extended.

iii. Shops shall be closed by the licensee on his own initiative in times of religious excitement or when there is a riot or disturbance in the neighbourhood.

iv. The room used for the shop shall always be separate from the shop-keeper's dwelling-house. The shop shall have only one door which shall face the street, and there shall be no other openings to the rear or ends of the building. No second room shall be allowed for the sale of ^{liquor}_{intoxicating drugs} or for the use of customers.

v. The Collector may, in his discretion, grant to the licensee a special license for a separate private bar on the licensed premises having a separate entrance thereto, provided it is labelled as such. The fee for such private bar shall be Rs. 5 for a day of 24 hours.

vi. The licensee shall neither allow any child of or under 14 years of age into the licensed premises, nor knowingly give or sell $\frac{\text{liquor}}{\text{intoxicating drugs}}$ to

- (1) Sailors of the Royal Navy, soldiers and the members of their families, except when supplied at licensed houses, refreshment rooms and shops, which have been specially approved by the General Officer Commanding the Division (or Independent Brigade) or the Officer Commanding the Station or Camp, and then only in respect to such $\frac{\text{liquors}}{\text{intoxicating drugs}}$ as shall be approved by the same authority in consultation with the local Excise authorities, and specified in the vendor's license.

- (4) European vagrants under escort of the police.
- (5) Insane persons.
- (6) Persons known or believed to be intoxicated.
- (7) Children under fourteen years of age.

The restrictions contained in (1) and (2) above do not apply to native soldiers, their families and followers when they are absent on leave from their regiments.

vii. Subject to the provisions of Rule 6 (ii) *supra* shops shall be kept open unless a temporary or permanent closure is authorised by the Collector. The licensee shall maintain a sufficient supply of $\frac{\text{liquor}}{\text{intoxicating drugs}}$ in his shop which shall never be less than $\frac{\text{two imperial gallons}}{\text{two seers except in the case of cocaine}}$.

viii. The holder of a license for the retail vend of $\frac{\text{liquor}}{\text{intoxicating drugs}}$ for consumption on the premises shall not allow any quantity of $\frac{\text{liquor}}{\text{intoxicating drugs}}$ exceeding the quantity which the Resident may from time to time prescribe, to be conveyed from the premises, except on special passes which may be obtained for special reasons only, from the Collector or the Superintendent of Excise.

The maximum quantity of $\frac{\text{liquor}}{\text{intoxicating drugs}}$ at present allowed to be conveyed out of the premises is in the case of—

Act, 1897.

Delegation to the
Resident of powers
under sections 2 (1)
and 2 (2) (b).

Local rules.

No. 5041-I.C., dated the 20th December 1906.—Printed in Appendix XVI.

No. 829-P., dated the 24th July 1906.—In exercise of the powers conferred under section 2, sub-section (1) of the Epidemic Diseases Act, III of 1897, as applied to the Civil and Military Station of Bangalore, and delegated to him by sub-section (3) of the same section by the notification of the Government of India,¹ No. 567-I.A., dated 12th February 1897, the Resident in Mysore is pleased to prescribe, under the said Epidemic Diseases Act, and in supersession of all Regulations previously issued on the subject the following Regulations to be observed in the Civil and Military Station of Bangalore.

PART I.—GENERAL ORGANIZATION.

1. The general control of the arrangements for the prevention and suppression of plague in the Civil and Military Station is in the hands of the Resident in Mysore, who may delegate such of the powers conferred by these Regulations as he may think fit to the President, Municipal Commission, or to any other officer. The Resident may appoint an officer to supervise the accounts, and other clerical work, connected with plague expenditure.

2. The Residency Surgeon is responsible for the supervision of the work of the District Medical Officers, of the Inspecting Medical Officers, and of the Hospital and Isolation Camp staff, and also for the working of the Health Department of the Municipal Commission, subject to the orders of the Resident.

3. The duties of the District Medical Officers are to visit cases of sickness and death, to examine arrivals, to supervise the work of supervisors in their districts, to superintend the disinfection of the houses of sick or suspected persons: also should no Special Plague Officer be appointed for the purpose, to bring to the notice of the Health Officer of the Municipal Commission any defects in the sanitation, or in the registration of vital statistics in their districts, and generally to carry out such duties as may be prescribed for them by the Residency Surgeon. They will also transmit daily to the Health Officer a nominal roll of all deaths reported in their respective districts. These nominal rolls should give the name, address and diseases, if ascertained, of the deceased, with information as to how the cause of death has been ascertained.

¹ Superseded by notification No. 5041-I. C., dated the 20th December 1906, *supra*.

4. The District Superintendent of Police will supervise the police arrangements connected with the observation and examination of travellers, the guarding of camps and the watching of cemeteries, and is held responsible that his Police co-operate actively in the carrying out of all measures for the prevention and suppression of plague.

5. A Chief Plague Officer, and Special Plague Officers, may be appointed by the Resident for the carrying out of arrangements for the disinfection and evacuation of infected places, for the organization and management of the labour employed on plague operations, and for such other duties as may be assigned to them by the Resident.

6. Supervisors may be appointed for the purpose of keeping correct registers of the inmates of each house, and of the movements of the population. They shall report all cases of sickness and death to the District Medical Officers. They should explain to the people in their circles the necessity of registering their relatives' deaths and should urge them to produce reliable evidence of the cause of their friends' or relatives' deaths and advise them, in the absence of other skilled opinion, to avail themselves of the District Medical Officer's services.

PART II.—MEASURES AGAINST THE IMPORTATION OF PLAGUE.

(a) Arrivals by rail.

7. Medical or other officers, appointed as Inspecting Officers by the Resident, shall have power to examine all persons arriving by the rail at the Bangalore City and Cantonment Railway Stations, and all such persons shall proceed to the spot indicated by the Inspecting Officer for his medical inspection and shall not depart from there without the sanction of the Inspecting Officer.

8. The examination of females shall be effected by a female medical subordinate, and every precaution shall be taken to respect the privacy of females who do not appear in public.

9. In the case of persons arriving at the Bangalore City and Cantonment Railway Stations, who intend to reside within the limits of the Civil and Military Station, the Medical or other officer, appointed by the Resident in this behalf, may demand of the person so arriving, his name, usual abode, and particulars of the places in which he has resided or which he has visited during the previous fifteen days, and also the address to which he is about to proceed, and any other particulars which the Medical or other officer may think fit to ask in view of satisfying himself as to the likelihood of the said person's spreading the infection of plague. A person so interrogated

shall be bound to answer truly, to the best of his knowledge and belief, all such questions and enquiries.

10. The Medical or other officer, appointed by the Resident under Regulation 7, may serve such person with a notice requiring him to report himself at the office of the District Medical Officer within whose district he is about to reside, within 24 hours, and to attend as subsequently directed by the District Medical Officer. If any such person cannot, in the opinion of such Medical or other officer appointed under Regulation 7, be relied on to report himself as directed, he may be sent by the Medical or other officer to the office of the Medical Officer within whose district he is about to reside, under escort of a police constable, and may be required to remain under such escort until his intended place of residence shall have been satisfactorily ascertained.

Provided that no person holding a certificate of inoculation, dated within six months previously, shall be required, unless he is unable to clearly indicate his intended place of residence, to report himself at the office of the District Medical Officer, but notice of his arrival shall be sent by the Medical or other officer at the Railway Station to the Medical Officer of the District in which he is about to reside, and he may be required to be present in his residence on such day, and at such time, as the District Medical Officer may appoint.

11. Persons alighting at the Cantonment Station, who intend to reside within the limits of Bangalore City, may be directed by the Medical or other officer appointed under Regulation 7 to report themselves to the ward-officer of the ward in which they intend to reside, and may, if the Mysore Government so require, be sent to the ward-officer under the escort of the Mysore State Police.

12. Nothing in these Regulations shall require females who do not appear in public to be interrogated by any person other than a female at the Railway Station, or to attend at any office, but they may be examined in their houses by females deputed by the District Medical Officer for the purpose.

13. The President of the Municipal Commission may prohibit the import of used apparel and bedding (except when carried as the personal baggage of travellers), rags, and waste paper, from any infected area into the Civil and Military Station.

(b) Arrivals by road.

14. The President of the Municipal Commission may require all persons arriving in the Civil and Military Station by road to report themselves to the Medical Officer of the district in which they intend to reside within twenty-four hours of their arrival. The District Medical Officer may, at his discretion, give a written notice to such persons requiring them to attend at his

office for such number of days not exceeding ten as he thinks fit. A person holding an inoculation certificate, dated within six months previously, will be obliged to report himself to the Medical Officer within twenty-four hours of his arrival, but will not be liable to again attend at the District Medical Office.

15. The District Medical Officer may direct any person whom he suspects of having arrived in the Civil and Military Station, whether by rail or road without having reported himself, to attend at his office for such number of days not exceeding ten as he thinks fit.

16. The President of the Municipal Commission may require every householder or head of a family to report to the supervisor of his block the arrival of any person from outside the Civil and Military Station in his house or family, whose arrival he does not know to have been otherwise reported to the District Medical Officer.

(c) General measures for the prevention of plague, and the treatment of early cases before plague becomes epidemic.

17. For so long as the Resident may declare this Regulation to be in force, the President of the Municipal Commission may require each householder or head of a family to give immediate information of any sickness occurring within his house or family to the Medical Officer of his district, or to a medical practitioner authorised in this behalf by the Resident.

18. The President of the Municipal Commission may require all medical practitioners, at once, to report to the District Medical Officer of the circle in which the sick person lives, any case of sickness or death in which glandular swellings or other symptoms suggestive of plague are perceived by them.

19. The President of the Municipal Commission may require every householder who becomes cognizant of any case of plague, or of fever with glandular swellings, in his house, or in any other private dwelling within the Civil and Military Station of Bangalore, to give information of the same to the District Medical Officer with the least practicable delay.

20. The owner or occupier of any house shall permit the District Medical Officer, or any Medical Officer duly authorised by the Resident, to enter his premises and examine any person whom the Medical Officer has reason to believe to be ill, or to have recently arrived from an infected area. If the person be a female, the examination shall, if the owner or occupier of the house desires it, be made by a female.

21. If on the examination of any person, the District Medical Officer, or any Medical Officer duly authorized by the Resident, believes or suspects that such person is suffering from pneumonic plague, he may cause such person to

be removed to the hospital provided for the purpose, or may take measures for segregating him in his house, if he can be properly segregated therein : provided that when he considers the death of such person to be imminent he shall not insist on his removal to hospital.

22. When the District Medical Officer or any Medical Officer duly authorized by the Resident, has, under the preceding Regulation, caused a person suffering, or believed to be suffering, from pneumonic plague, to be removed to the hospital, he may also cause the occupants of the house in which such person resides to be removed to a detention camp and detained for ten days : provided that any member of the family who desires to attend on the sick person shall be allowed to do so : and provided also that no person holding a certificate of inoculation, dated within six months previously, shall be removed to the detention camp, except for so long as may be necessary for his disinfection.

23. The owner or occupier of a house shall comply with any order that may be issued by the Resident, or by any officer duly authorised by him in this behalf, with regard to the cleaning and disinfection of his house, the destruction of rats therein, the disinfection of the clothing or personal effects of the inmates, the medical inspection of any person who has, or is believed to have, come from an infected area, the disposal of any corpse, the improvement of the sanitary condition of the premises, or with regard to other similar matters : and the officer in question shall, if he considers it necessary, himself take measures for the disinfection of the house, for the killing of rats or for the carrying out of measures prescribed by this Regulation.

24. When, in the opinion of the District Medical Officer, any building or place is so overcrowded as to render the inmates or occupants thereof specially liable to an attack of plague, or to contribute to the spread of the disease should an outbreak occur, the Resident, or any officer duly authorised by him, may by notice posted on some conspicuous part of the building or place, require the owner or occupier to abate the overcrowding within such period as he shall prescribe, not being less than 48 hours, by reducing the number of lodgers, tenants or inmates of the said building or place : and in default of compliance with the requisition in the said notice may summarily eject all the inmates or occupants, or reduce the number of such inmates and occupants in such manner and to such extent, as may appear necessary : and the owner or the tenants or the inmates of such building or place shall not be entitled to claim any compensation on account of such ejection.

PART III.—ACTION TO BE TAKEN ON AN OUTBREAK OF PLAGUE.

25. When there is reason to believe that cases of plague are occurring within the Civil and Military Station, the Regulations contained in Part II

shall continue in full force and effect until suspended or modified by the Resident.

26. The powers of removal of persons suffering from pneumonic plagues and of the occupants of the houses in which such persons have been residing, to the hospital and detention camp respectively, vested in Medical Officers by Regulations 21 and 22, shall continue to be exercised by them, unless or until the Resident issues a notification cancelling or modifying these powers.

27. Special Plague Officers appointed for the work of disinfection, or for any other duty assigned to them by the Resident, shall have the right to enter the premises of any place or building in the execution of their duties.

28. There shall be provided, in such localities as are suitable for the purpose, places for the treatment of persons suffering or suspected to be suffering from plague, or for the housing of persons who have been in contact with plague cases, or for the accommodation of persons who have been obliged to evacuate infected quarters.

29. Any house, building or land, which the Resident considers to be suitable and required for the purpose of a hospital, or for the housing of persons who have been in contact with plague, or for the erection of camps for the accommodation of persons who have left their dwellings, may be entered upon and occupied by the Resident or by any officer authorised by him, if untenanted, without any notice whatever, and if tenanted, after twenty-four hours' notice in writing has been conspicuously posted on such house, building, or land, and may be used for any of the above purposes. The owner or lessee of such house, building or land shall not be entitled to claim anything beyond a reasonable rent for the period during which such house, building or land may remain in such occupation, provided that the Resident shall be bound at the cost of Plague Funds to clean and disinfect the said house, building or land : and, if a house or building, to limewash it both internally and externally before vacating it.

30. The Resident may grant permission to any person, or to the members of a particular caste, to erect or provide family or caste hospitals and camps.

31. Such hospitals and camps shall be under the management of the person or caste providing them, subject to medical inspection by the Residency Surgeon, and provided that suitable arrangements are made for guarding them. The Resident may at any time for any sufficient reason close any family or caste hospital or camp.

32. The cost of any such hospital or camp shall be met by the persons on whose application they were sanctioned : but the Resident may make a grant

in aid of the expenses of any such hospital or camp, when he considers this to be advisable.

33. In all hospitals the relatives, friends, *hakims*, *baides* and priests of the patients shall be allowed free access to them, subject to any precaution which the Residency Surgeon may, by notice posted at the entrance, declare to be necessary : and if the relatives of the sick person so desire, he may be medically treated by a *hakim* or *baid*.

34. Any friend, relative or attendant who desires to tend a sick person shall be allowed to do so, but the Residency Surgeon may limit the number of such attendants in any hospital.

35. No patient in any hospital shall be compelled to take any English medicine, should he object to do so.

36. In all hospitals separate and suitable accommodation shall be provided for females, and they shall, so far as may be possible, be treated by female agency.

37. In any house in which a case of plague has occurred, the Resident or any officer authorised by him, shall take measures for the disinfection and cleansing of the house, bedding, clothing and articles of a similar nature, the improvement, if necessary, of the sanitary condition of the premises, the provision of light or ventilation, and other sanitary precautions. The Resident, or any officer authorised by him, may further order the destruction of any building or of any bedding, clothing, or other articles, if disinfection cannot be satisfactorily effected otherwise.

38. The owner or occupier of any house in which a case of plague has occurred, shall permit the Resident or any officer authorised by him to enter his house or premises for the purpose of carrying out the provisions of the preceding Regulation.

39. When the disinfecting party is ready to clean any house, the inmates may be at once required to temporarily vacate the premises, while the cleaning and disinfection is being carried out. On the completion of the cleaning and disinfection, the inmates shall immediately be allowed to re-occupy the premises, unless they be declared by the District Medical Officer to be unfit for human habitation, provided that any person who desires to disinfect his

house, a case of plague not having occurred therein, may be allowed to do so to the satisfaction of the officer in charge of the work of disinfection in the Division.

40. Whenever any building or portion of a building is found to be fastened or locked up, and the owner or occupier is not present, any officer authorised by the Resident may affix a written notice on the door, stating such building or part of a building will be opened, and disinfection will be carried out after such time, not being less than twenty-four hours, as may be prescribed in the notice. At or after the expiration of the time prescribed, the officer authorised by the Resident may break open and enter any such building or portion of a building, and may carry out the measures prescribed in Regulation 37 above.

41. Whenever any building is cleaned and disinfected, the officer in charge of the disinfection shall draw up a statement showing the description and estimated value of the articles in the building destroyed or damaged in the process of disinfection, the number of men employed on the work of disinfection, the time occupied, and the estimated value of the disinfectants used. A copy of the statement shall be given to the owner or occupier of the building, if he so requests. The whole or any part of the expenses of disinfection as shown in the said statement may subsequently be recovered from the owner or occupier and may be credited to Plague Funds.

42. Whenever a building is entered and disinfected, the owner or occupier of a house, or any relative of his, or any person authorised by him, shall be permitted to be present.

43. After a building or portion of a building has been disinfected the door may be locked and sealed, and the officer in charge of the work of disinfection may retain the key until re-occupation of the building or portion of a building is permitted.

44. If, in the opinion of the District Medical Officer, the destruction of any hut or shed is necessary to prevent the spread of the plague, any officer authorised by the Resident may summarily take measures for the destruction of such hut or shed, and the materials of which it is constructed. A record of the action taken under this Regulation shall be maintained. .

45. Whenever any house is vacated under these Regulations, the owner or occupier may remove any valuable property, subject to its disinfection if necessary, or may place it in a place to be provided in each Division for the safe custody of such property. The Resident will not be responsible for the safety of any property left in a vacated house.

46. No house that has remained unoccupied since the commencement of plague, or that has been vacated or deserted by its inhabitants, shall be re-occupied except with the permission of the District Medical Officer, who may require it, before he permits occupation, to be cleaned, and, if he considers it unfit for human habitation, to be structurally altered, so as to allow the admission of air, and to improve the ventilation.

47. The President of the Municipal Commission may prohibit persons living in an infected quarter of the Civil and Military Station from going to reside in, or removing property to, another quarter of the Civil and Military Station.

48. Rules for the supply
and sale of stamps.

No. 32, dated the 1st April 1908.—In exercise of the powers conferred by section 74 of the Indian Stamp Act, 1899 (II of 1899), as applied to the Civil and Military Station of Bangalore, by the notification of the Government of India in the Foreign Department, No. 1159-I.A., dated the 5th May 1899, and in supersession of the rules promulgated by notification No. 25, dated the 10th May 1907, the Resident in Mysore is pleased to make the following rules for the supply and sale of stamps and the appointment, duties and remuneration of persons by whom such sale is to be conducted in the Civil and Military Station.

For the purposes of these rules stamps are divided into two classes, viz.,

- (i) Adhesive stamps.
- (ii) Impressed stamps.

2. Adhesive stamps used to denote the duty of one anna or half an anna may be sold by any person. All other stamps shall be sold by *ex-officio* or licensed vendors in accordance with these rules.

3. Such officers of Government, as the Resident may appoint, shall be *ex-officio* vendors. Such persons as may be licensed by the Collector of the Civil and Military Station of Bangalore shall be licensed vendors.

4. *Ex-officio* vendors shall supply stamps to the public and to licensed vendors; and shall allow discount to the latter at the rates and under the conditions hereinafter prescribed.

5. Licensed vendors shall sell to the public such stamps as are indicated in their licenses. They shall obtain stamps from *ex-officio* vendors on payment of ready money (less the commission hereinafter prescribed), and shall keep such stock of stamps, including half-anna and one-anna unified stamps, as the Collector may consider sufficient to meet the demand likely to be made upon the licensed vendors for their supply.

6. Licenses shall be issued in Form B annexed to these rules and shall specify the name of the licensee, the description of stamps which may be sold under the license, the place of vend, the period of the currency of the license and such other matters as may be necessary and shall be signed by the Collector.

7. Any license granted under these rules may be suspended or cancelled at any time by the Resident or by the Collector.

¹ Superseded by notification No. 732-D, dated the 19th March 1913, paragraph II of which keeps this notification in force. Printed Vol. I, p. 380.

8. Subject to rule 9 every licensed vendor who purchases stamps from an *ex-officio* vendor shall receive the same at such discount not exceeding the following rates as may from time to time be prescribed by the Resident :—

Description of Stamps.	Rate of discount per cent.
<i>Adhesive Stamps.</i>	
Stamps not exceeding in value 8 annas each	3 2 0
Exceeding 8 annas but not exceeding R5 each	1 9 0
" R5 but not exceeding R50 each	1 9 0
<i>Impressed sheets.</i>	
Hundi Stamps	} 3 2 0
Impressed stamp paper	

9. No discount shall be given if the number or value of stamps purchased at one time is less than the minimum number or value which the Resident may from time to time prescribe in this respect. Provided that no discount shall be given on account of the purchase of any stamp exceeding R50 in value nor on account of the purchase of half-anna and one anna unified stamps.

10. Every licensed vendor shall at all times have exhibited in a conspicuous spot outside the place of vend, a signboard bearing the name of the vendor with the words "Licensed Vendor of Stamps" in English and in Canarese. He shall also keep in the place of vend a copy of these rules together with a translation thereof in Canarese and a copy of the Indian Stamp Act, 1899 (II of 1899), as applied to the Civil and Military Station of Bangalore, in such a manner that they can readily be seen and read by purchasers.

11. Every stamp vendor shall write on the back of every impressed stamp which he sells, a serial number, the date of sale, the name and residence of the purchaser—and if the stamp is purchased for the use of any person other than the person who tenders the money for it, the name and residence of that other person also—and the value of the stamps in full in words and his own ordinary signature. The serial number shall begin with the first stamp paper sold in the official year and end with the last.

12. An endorsement made under rule 11 shall not be altered. If an incorrect endorsement has been inadvertently made the stamp paper may be treated as spoiled.

13. Every stamp vendor shall keep a register of sales in Form A annexed to these rules, together with—

- (a) a stock book showing daily receipts in which all stamps shall be entered as received. On the last day of each month the vendor shall add up the columns and enter in one line the receipts of the whole month. Below this line he shall enter the sales of the month obtained from the register of sales. The difference will be the opening balance of the next month.

(5) an abstract of daily sales, the columns of which shall be totalled at the end of every month.

(6) a monthly abstract of stamps received and sold, which shall be submitted to the Treasury Officer at the beginning of each month. In this form the sales by a licensed vendor shall be given in the lump under each designation of stamps, without reference to the transactions in each value, but an *ex-officio* vendor should distinguish the sales to licensed vendors from sales to others. Books containing these forms will be issued from the Collector's office. The above accounts shall be produced for inspection on the demand of any Government officer not below the grade of Amildar.

14. An entry shall be made in the register of sales as each sale is effected. If the vendor takes a stamp from stock for his own private use it must be treated as a sale.

15. Every stamp vendor shall, without delay, deliver any stamp which he has in his possession for sale on demand by any person legally tendering the value in current coin or currency notes. No vendor shall demand or accept for any stamp more than the actual value denoted thereon.

16. No stamp vendor shall sell any stamp, the use of which has been ordered by competent authority to be discontinued.

17. Every stamp vendor shall at any time, on the demand of the Collector or other officer duly authorised by the Resident, deliver up all stamps or any class of stamps remaining in his possession. The Collector shall, when stamps are returned into the Treasury on (1) resignation of the vendor's license, (2) revocation of license for any fault of the licensee, (3) death of the vendor, or (4) application of the vendor for leave to restore any stamps, repay the vendor or his representatives the full value of the stamps less a deduction of one anna in the rupee or a fraction of a rupee ; when, however, the stamps are returned on (5) expiration of license, (6) recall of stamps by Government, or (7) revocation of license for any other cause than that mentioned in (2), they should be taken back at their full value less only any discount allowed on their sale to the licensed vendor.

18. Stamp papers will be sold at the Resident's Treasury and also at other licensed vend premises excepting single stamps of the value of more than Rs50 which may be sold, without discount, to any person by the Treasurer of the Resident's Treasury.

19. The account books of vendors will be sent for and examined once a quarter by the Officer in charge of the Resident's Treasury in order to ensure their being properly kept.

20 When a stamp vendor is unable to supply a single stamp paper of any required value, he shall, unless the said value exceeds the highest value of stamp which he is authorised to sell, supply the smallest number of stamp papers available to make up that value and shall record on the back thereof a certificate to that effect.

21. A licensed vendor may sell stamps at his place of vend at all times, and every stamp vendor shall do so daily from 10 A. M. to 5 P.M. except on Sundays and holidays.

Rules under section 69 of the Indian Registration Act, 1908, as in force in the Civil and Military Station of Bangalore.

PART I.

General Rules

1. (1) Kanarese, Tamil and English shall be deemed to be commonly used in the Civil and Military Station of Bangalore. Section 19.

(2) The stamp vendor's endorsement on a document shall be considered to be a part of the document and, if it is in a language not understood by the registering officer, the party concerned shall be required to file a translation.

(3) When a power-of-attorney is presented for attestation or when an attested power-of-attorney is produced by an agent with, or in connection with, a document presented for registration and the power-of-attorney is written in a language not commonly used in the Civil and Military Station of Bangalore, the registering officer may, if he does not understand the language, demand of the presentant a true translation of the power in English or in a language commonly used in the Civil and Military Station of Bangalore.

(4) The translation shall be certified to be a true translation and shall be signed by the presentant.

(5) No fee is leviable for filing a translation in cases falling under this rule.

¹ See footnote 1 on page 648 *supra*.

2. The term "territorial division" in the Indian Registration Act, XVI of 1908, as in force in the Civil and Military Station of Bangalore, shall mean the Civil and Military Station of Bangalore and shall, as far as practicable, include the town, village, hamlet, suburb or other well-known division in which the property referred to in a registrable document is situated. If the prescribed period is passed, but the document is still admissible on payment of a fine, he shall, if he is a Sub-Registrar, suspend its registration, pending a reference to the Registrar. If the document is one chargeable with duty under the Indian Stamp Act, II of 1899, as in force in the Civil and Military Station of Bangalore, and is not duly stamped, it must be impounded under section 33 thereof and dealt with as required by section 38, sub-section (2), registration being suspended. Prior to sending it to the Collector, however, the registering officer shall be at liberty to record the admission of the executant and the examination of his witnesses, if any, in cases in which the document may be presented by the executant himself or in which he may be present at the office at the time of its presentation. If the document is one dutiable under the Court Fees Act, VII of 1870, and is unstamped or is insufficiently stamped, it should be simply returned to the party presenting it (*vide* section 6 of the Act), in order that the stamp duty or the deficiency in the stamp duty may be made good.

Information regard-
ing stamp.

5. If the executant of a deed who is in doubt about the proper stamp consults a registering officer on the subject before formal presentation, the required information may be given to him without impounding the deed. It will be explained to the executant at the same time that, if he wishes to obtain an authoritative opinion, he must apply to the Collector under section 31 of the Indian Stamp Act, II of 1899, as in force in the Civil and Military Station of Bangalore.

Executing parties.
Sections 32 and 34

6. Any person who becomes surety for the repayment of a loan or the fulfilment of a contract and in that capacity affixes his signature to a document,

Any person who endorses a negotiable document ;

And any person who signs a receipt or discharge endorsed on a document, shall be held to be an executing party.

In the case of documents purporting to be executed by an attorney, such attorney shall be held to be the executing party for the purpose of sections 32, 34, 35 and 58 ; but for the purposes of section 55, the principal and attorney shall be considered to be executing parties.

Identification of
parties admitting
execution. Sec-
tion 34.

7. The identity of the parties appearing before the registering officer should, if possible, be proved by the testimony of persons who are personally known to himself, or when this is not procurable, by the most trustworthy evidence which may be available. The attesting witnesses to a document need not necessarily be examined at all, as what is ordinarily required is not proof of execution but proof of identity. It may often be inconvenient to such persons to come in from their villages and they may after all be

strangers or obscure persons with whose testimony the registering officer ought not to be satisfied.

8. The impression of the left thumb of the executant or executants of documents to be registered shall be taken in printer's ink off a flat piece of tin, copper or glass properly prepared for the purpose, and transferred both to the documents and to a blank register kept in the Registration Office. Against each impression in this register, the name of the party, the number of the deed in Books I, III, IV or V and the date shall be entered. The registering officer may require every executant and identifying witness who is not personally known to himself to affix such an impression both to the deed and the register in his presence whether he can write his name or not.

9. The term "representative" as used in the Indian Registration Act, 1908, as in force in the Civil and Military Station of Bangalore, includes not only the guardian of a minor, and the committee or other legal curator of a lunatic or idiot but also the executors, administrators and heirs of a deceased person. Satisfactory proof of the right of any person to appear in any of these capacities must be adduced before he is permitted to admit or deny execution of any document presented for registration.

10. It shall form no part of the registering officer's duty to enquire into the validity of the documents brought to him for registration or to attend to any written or verbal protest against the registration of a document, based on the ground that the executing party had no right to execute the document tendered for registration. But registration may be objected to on any of the following grounds:—

- (a) That the parties appearing or about to appear before the registering officer are not the persons they profess to be.
- (b) That the document is forged.
- (c) That the person appearing as a representative, assign or agent has no right to appear in that capacity.
- (d) That the executing party is not really dead, as alleged by the party applying for registration.
- (e) That the executing party is a minor, an idiot or a lunatic.

11. As a general rule, registration shall take place in public, but the registering officer may, on the application of the parties, and if he shall think proper, exclude the public during the course of any enquiry.

12. Documents executed by persons who are unable to read shall be read out, and, if necessary, explained to the parties. Documents written in a language not understood by the executing party, shall, in like manner, be interpreted to him.

Summons. Sections 36, 37 and 38.

12. Any person requiring a summons to be issued under section 36 shall deposit the process or peon's fee payable in such cases, as well as the amount of expenses to be paid to the person summoned. The sum so deposited shall be remitted by the registering officer to the District Judge, Civil and Military Station of Bangalore. If the person, without lawful excuse, fails to comply with the summons, the registering officer shall report the fact to the District Judge, Civil and Military Station of Bangalore, in view to steps being taken to enforce the attendance of such person under Order XVI, rules 10 to 13 and 17 and 18 of the Code of Civil Procedure.

Receipts for documents and for fees. Sections 62 and 61.

14 (i) A receipt shall be granted for each document presented for registration, for each power-of-attorney presented for attestation and for each sealed cover deposited and for every fee or fine levied by a registering officer.

An application for transfer of revenue registry presented with a document shall be acknowledged in the receipt for the document.

(ii) When the fees consist of several items, each item shall be separately entered both in the receipt and in the counterfoil so as to admit of any overcharge being traced. In the case of copying fees, the number of words shall be entered and, in the case of mileage, the number of miles.

(iii) The requisite entries shall be made both in the counterfoil and in the receipt, which shall be respectively initialled and signed by the registering officer.

(iv) The receipt for a document shall be handed to the person presenting the document or to his nominee, after obtaining in the counterfoil the signature of the presentant to the endorsement of nomination, and also the signature of the nominee if he can write, for the purpose of comparison when the nominee appears to take back the document.

(v) A separate receipt shall be given for each document even when two or more documents are presented simultaneously by the same person.

(vi) If a document is ready for transcription on the day of its presentation, the day and hour when it will be ready for return shall be endorsed on the receipt. In the case of a document retained pending an enquiry or a reference, the day and hour of return shall be communicated to the presentant or his nominee by a separate notice issued on the day when the document becomes ready for transcription. If, however, in the latter case the receipt is produced on the day when the document is ready for transcription and the document cannot be returned on that day, the information may be endorsed on the receipt itself. When a document is not ready for return on the date entered on the receipt or in the notice, the entry of

that date shall, if the receipt or notice is produced before the registering officer, be cancelled and the probable later date on which the document will be ready shall be entered under the initials of the registering officer. Corresponding entries and corrections shall be made in the counterfoil.

(vii) A document shall, if possible, be returned on the date of its admission to registration.

(viii) In order to obtain delivery of a document the person entitled to claim back the same shall produce the receipt, and the registering officer shall thereupon obtain his signature to the acknowledgment in the counterfoil and return both the document and the receipt after endorsing on the latter the date of its return and initialling this entry. A person entitled to claim back a document who is known to the registering officer may obtain the return of a document by sending the receipt to the registering officer through a messenger with a requisition endorsed on the receipt and signed by himself for the delivery of the document to the messenger. The document may then be handed over to the messenger after his acknowledgment and thumb impression have been taken in the counterfoil of the receipt, the receipt being retained in the office and pasted to the counterfoil.

(ix) In the event of a receipt being lost, the person who should have produced it may receive the document on making and signing on the counterfoil a declaration of the loss and, if required by the registering officer, affixing his thumb impression thereto.

(x) When a nominee fails to take back a document within seven days from the date noted on the receipt as that on which it will be ready for delivery, the nomination may be revoked by the person by whom it was made, by an entry signed by him to that effect in the counterfoil and he shall in that case receive the document himself.

When a party to a document objects to its being returned to a person in whose favor the receipt has been drawn up, the objection shall not be allowed to prevail, unless such party can satisfy the registering officer, that he has applied to a competent Court for an injunction to restrain the registering officer from returning the document.

(xi) When an impounded document is received back from the Collector after adjudication of stamp duty, the registering officer shall immediately give notice in writing to the presentant or to the person authorised to take delivery of the document either to take steps to complete the registration of the document, or to take delivery of the document.

(xii) When proceeding to attend at a private residence the receipt book shall not be taken by the registering officer, but the requisite receipt may

be detached from the counterfoil for issue to the party concerned, the entries in the counterfoil being made after return of the registering officer to his office. In such a case any nomination to take delivery of a document shall be obtained on a slip which shall be initialled and dated by the registering officer and pasted on to the counterfoil.

(xiii) Clauses (iv) to (xii) of the rule do not contemplate the return of a document by post but a document may be so returned if a presentant desires this course to be followed and at his own risk, subject to the following conditions :—

- (a) The presentant shall sign an endorsement on the counterfoil of the receipt authorising the return of the document by registered post to an address to be specified and shall deposit with the registering officer a suitable envelope on which shall be super-scribed the address and to which postage stamps are affixed sufficient to cover the registration fee, the postage and the fee for obtaining the acknowledgment of the addressee.
- (b) The registering officer shall secure the envelope after causing the requisite entries to be made in a register maintained for the purpose.
- (c) When the registration of the document has been completed, the registering officer shall enclose the document in the envelope and post it and shall note the fact on the counterfoil.
- (d) The acknowledgment of the addressee shall, on receipt, be pasted to the counterfoil.
- (e) At each stage the corresponding entries shall be made in the register referred to in sub-clause (b).

Searches Section
57.

15 The fee for a search shall entitle the applicant to read the entry for the finding of which the fee has been paid, or to have it read to him, but it shall not entitle him to take a copy of the entry. If a search should prove fruitless, the fee shall not be refunded, but the applicant shall, if he wishes it, receive a certificate stating that the entry sought for has not been found in the books.

Certified copies
Section 57.

16 In a certified copy every figure shall count as a word. If initials or abbreviations are used instead of words, every initial or abbreviation shall count as a word. Thus "A D 1866" will be equivalent to six words; "Bounded on the N. E." to five words; and "A. R. Thompson", to three words

Searches by Govern-
ment Officers.
Section 57.

17. Government officers who may require to search the registers or to take copies of entries for *bona fide* public purposes shall be permitted to do so without payment of any fee.

18. In complying with any requisition made by a Court which involves a search or the preparation of a copy of any document, the registering officer shall forward to such Court a memorandum of the fees payable on that account, in view to the amount of such fees being remitted by the Court to the registering officer. In like manner, when a registering officer receives a summons to produce any register books in Court, he shall apply to the Court issuing the summons for the payment of the travelling and other expenses to be defrayed by him, or by any of his clerks, in passing to and from the Court.

19. The office of the Sub-Registrar shall be open for six hours daily, Sundays and holidays excepted. The usual hours shall be from 11 a.m. to 5 p.m., and if it be found necessary to change these hours a notice to that effect shall, with the approval of the Inspector-General, be affixed in the office for the information of the public.

Any registration office may be open, if necessary, for more than six hours.

20. A notice showing where the registering officer lives must be affixed outside every office.

21. The same holidays shall be allowed in Registration offices as in all other Government offices.

22. All unclaimed documents, other than wills, may be destroyed with the sanction of the Inspector-General when the period allowed, *viz.*, two years, has been exceeded, unless the officer in whose custody they are should see some special reason for keeping them. In the event of a registered instrument being destroyed, a note showing the date on which it was destroyed shall be entered in the page of the volume in which it has been copied. In the event of the instrument being one of which registration has been refused, a similar entry shall be made in the page of Book II containing the order of refusal. Lists of documents lying unclaimed shall be hung up in every Registration office, and shall from time to time be published in the local Gazette. Notice shall also be given by letter, service bearing, addressed to the persons entitled to receive the documents lying unclaimed.

23. When registration is refused because the document has been presented in the wrong office or in an office in which the acceptance of the document is left to the discretion of the Registrar, no order of refusal shall be entered in Book II. In all other cases the reason, or if there is more than one reason, all the reasons for refusal shall be at once recorded. They will usually come under one or more of the following :—

- I. That the document is written in a language which the registering officer does not understand and which is not commonly used in

- the Station, and that it is unaccompanied by a true translation and a true copy.
- Section 20. II. That it contains unattested interlineations, blanks, erasures or alternations.
- Sections 21 (1) (2) and 22 III. That the description of the property is insufficient to identify it.
- Section 21(3). IV. That the document is unaccompanied by a copy or copies of any map or plan which it contains.
- Sections 23, 24, 25, 72, 76 and 77. V. That it is presented after the prescribed time.
- Sections 32, 33, 40 and 43. VI. That it is presented by a person who has no right to present it.
- Section 34. VII. That the executing parties or their representatives, assigns, or agents have failed to appear within the prescribed time.
- Sections 34 and 43. VIII. That the registering officer is not satisfied as to the identity of any person appearing before him, and alleging that he has executed the document
- Sections 34 and 40. IX. That the registering officer is not satisfied as to the right of any person appearing as a representative, assign or agent so to appear.

- Section 35. XII. That execution is denied by the representative or assign of any deceased person by whom the document purports to have been executed.
- Sections 35 and 41. XIII. That the alleged death of any person by whom the document purports to have been executed has not been proved.
- Section 41. XIV. That the registering officer is not satisfied as to the fact of execution, in the case of any will or authority to adopt, presented after the death of the testator or donor.
- Section 42. XV. That a cover containing a will is not sealed, or is not superscribed with the name of the testator and that of his agent (if any), and the nature of the document.
- Sections 30, 25 and 24. XVI. That the prescribed fees or fines have not been paid.
- Registration of documents in which Sub-Registrar is interested. Section 30 (1). 24. The Sub-Registrar is not authorized by law to refuse to register a document which has been executed by himself or in his own favour or because he is a party interested remotely or indirectly, in the transaction to which such document relates; nor is he authorized to refuse to authenticate powers-of-attorney granted for the registration of such documents; but he will always recommend the parties to present such document or power-of-attorney to the Registrar, who will, as provided in the table of fees,

register such document without charging the usual extra fee. If the parties, after being recommended as above, insist on the Sub-Registrar registering a document in which he is interested, he must register it. In this case, he will immediately report the fact for the information of the Registrar.

Fees and Fines.

25. It is for the registering officer, who is responsible for levying the fee, to determine in the first instance what fee should be paid. After it has been paid, the presenting party may, if he is dissatisfied, refer the question to the Registrar who shall, if he thinks there has been an over-charge, order the Sub-Registrar to refund any excess. If the decision is adverse to the party, he may make a further reference to the Inspector-General.

26. (i) In the event of registration being refused, any fee or fine which may have been levied shall be refunded except fees for commissions, summonses, attendances and travelling allowances where such fees and allowances have been earned.

(ii) Every application for the remission of a fine or fee shall be lodged in the first instance with the registering officer who levied it, for submission to the sanctioning authority through the proper channel.

(iii) The Registrar may himself dispose of applications for the refund of fees or fines collected in excess or for work not performed by the department.

27. (i) Whether a document is admitted to registration or not, all fees or fines shall be at once brought to account and the collection shall be remitted to the Honourable the Resident's Treasury whenever they reach Rs 100 and always on the last working day of the month.

(ii) A remittance to the treasury shall be accompanied by the chellan book, duly filled up in duplicate, in view to one copy of each chellan being returned signed by the treasury officer.

28. (i) A separate attestation fee shall be levied on every signature requiring authentication in a power-of-attorney executed by several persons provided that only one attestation fee shall be levied when a person executes a power-of-attorney both for himself and as guardian or agent of one or more other persons.

(ii) The duplicate or triplicate of the power-of-attorney presented for authentication shall be treated as a separate power and a separate attestation fee levied thereon.

29. If the registering officer is required to attend at the same time and place for the purpose of attesting several signatures to a joint power-of-attorney, or of attesting several powers-of-attorney executed by one person only one attendance fee shall be levied.

Documents executed by a Government officer or by any one of the public functionaries named in section 88, as well as documents executed on the one part by such Government officer or public functionary and on the other part by any other person, shall not be admitted to registration unless they are presented at the proper Registration office by such other person or by a person claiming under the same or by the agent, representative or assign of any of these persons, respectively, or unless they are forwarded for registration by the Government officer or public functionary executing the same.

PART II.

DEPARTMENTAL RULES.

Seals. Section 15.

81. The seal shall always remain in the personal custody of the registering officer. Care shall be taken to produce a distinct and legible impression with it, and for this purpose the pad and printing ink supplied for the purpose shall be used. The seal shall be used in authenticating :—

- (a) The certificate endorsed on a registered instrument under section 60.
- (b) Powers-of-attorney attested by a Registrar or Sub-Registrar under section 33.
- (c) Commissions issued under sections 33 and 38.
- (d) Certified copies of entries under section 57.
- (e) Copies of orders of refusal to register, granted under sections 71 and 76.
- (f) Copies granted to parties, of entries other than those above referred to.
- (g) Certificates granted to applicants as regards registered transactions affecting immoveable property.

If a registering officer should find himself temporarily unprovided with the prescribed seal, registration shall nevertheless go on as usual, and such documents as may be admitted to registration shall remain in the registering officer's custody until the seal can be affixed to the certificate.

Forms, paging, &c.,
of registers, Sections
16 and 51.

82. The registers shall be prepared in the forms hereunto appended. Books I and IV shall ordinarily contain 500 pages each ; in other cases the Inspector-General shall certify the number of pages. Where necessary more than one volume may be used simultaneously for the registration of the documents, and the order in which documents shall be entered in each volume shall be determined by the registering officer with reference to such general

instructions as may be given by the Inspector-General from time to time. Books II, III and V shall contain 120 pages each, except in cases where the Inspector-General certifies the number of pages. A file book shall also be supplied, corresponding with Book I and similarly paged. In it shall be filed all true copies and translations of documents received under sections 19 and 62, all copies of maps and plans mentioned in section 21, and copies of certificates received under section 89. This volume shall have a number assigned to it in the general series of Book I, as soon as it is brought into use and when complete, it shall, if necessary, be bound.

83. Books for registers and indexes will be supplied for the use of the Registrar and Sub-Registrar from the Office of the Inspector-General, by whom the number of pages contained in each book will be certified on the fly leaf. Every Registrar and Sub-Registrar shall, at all times, have a reserve supply consisting of one additional copy of each book, except register Nos. II, III, and V, and will submit timely indents for further supplies. Every blank book shall be carefully examined by the registering officer on receipt, and if found incomplete it shall at once be returned to the officer from whom received with a memorandum stating in what particulars it is defective. No officer should ever be unprovided with the requisite registers, but, if owing to any unavoidable accident, such a contingency should arise, instruments tendered for registration shall, nevertheless, be received as usual, the necessary inquiries shall be held, and the prescribed endorsements shall be made. But as the certificate cannot be added until the instrument is copied into the register, the instrument must remain in the registering officer's custody until the process of registration has been completed.

84. Notes of interlineations, erasures or alterations in documents or in endorsements thereon must be so prepared as to show precisely what word or words have been interlined, erased or altered. In the majority of cases, the simplest plan will be to underscore the particular word or words and to write the letters a, b, c, d, above with corresponding footnotes preceded by the expression "in document," interlineations, etc.

(a) interlineation (or erasure, etc.).

85. If a word in the original is misspelt, or if a word is by mistake repeated, or if some word necessary to complete the sense is omitted, the error or omission may be indicated by under-scoring the word or words in which it occurs and by writing a letter or figure above, with a corresponding footnote,—

(a) Sic,

but no attempt shall be made to correct the error or supply the omission

37. Notes, similar to those mentioned in Rules 34 to 36, should be made also in regard to interlineations, erasures, alterations, etc., made in the copies of documents entered in the registers. The particular word or words interlined, erased, altered, etc., in the copy should be bracketted in black ink and the figures (1), (2), (3), (4), entered above them with corresponding footnotes, preceded by the expression, "in register, interlineations, etc."

Re-registration
Sections 24, 72, 75
and 77.

38. In all cases of re-registration under section 24 and of registration ordered under sections 72, 75 and 77, the document shall be copied in the register in the column headed "copy of document" and the endorsement and certificate and registration as well as the endorsements of previous presentation and refusal, and certificate of registration shall be transcribed in the column of endorsement, so as to show in chronological order the several stages of procedure gone through in regard to it.

Attendance at private
residences. Section
31.

39. If a registering officer acts under section 31, he must go in person, provided that it does not interfere with the regular business of the office. The Sub-Registrar shall report every such attendance to the Registrar, who shall satisfy himself that the special cause assigned was a sufficient cause, and the Sub-Registrar's absence from his office was not longer than was necessary.

When powers-of-attorney are brought to a Registration office by persons who do not understand the distinction between attestation and registration it will be the duty of the registering officer to explain the difference and to give such information as may be necessary to prevent the parties from being subjected

to unnecessary expense by the registration of powers which need only to be attested

42. All interlineations, blanks, erasures or alterations in powers-of-attorney authenticated under section 33, should, at the time of authentication, be detailed in a footnote signed by the registering officer. When there are no interlineations, etc., the fact should be noted in the same way. This footnote will be copied in every case in the abstract kept under rule 41.

50. Book I shall be prepared as to admit as far as possible of the various conveyances, mortgages, leases, etc., of any property entered in it being traced back in successive order through the different volumes in which they appear. When therefore a document is admitted to registration, the registering officer shall ascertain from the parties the number or date of the last registration affecting the property to which it relates, and if the registration can be traced either by the production of the last instrument registered or by the number or date given by the parties, a note shall be entered in the register referring to the number, page and volume of this last previous registration. The information given should be verified, if necessary, by a reference to the records of the office, free of charge.

Authentication of registers, Sections 52 and 59.

51. After a document and the endorsement and certificate on it have been copied into the register, the registering officer shall personally ascertain the correctness of the copy and of the notes of interlineations, etc., by having the original read aloud to him by some person other than the copyist, while he has

the register before him. He shall initial every page and affix his signature at the foot of the copy of the instrument, before the original instrument is returned to the party. He shall also initial all corrections, interlineations and erasures. In the event of the registering officer being prevented by pressure of business or any other cause from personally comparing the original with the copy in the register, he may delegate this duty to one of his clerks. Both the copyist and the examiner shall sign the record and enter the words "copied by" or "examined by." If a register is under any special circumstances closed before it is full, a certificate shall be entered at the foot of the last entry stating that the book ends there. If one or more pages are by oversight left blank in any part of a volume, a certificate to that effect shall be entered in each page so left. And no additional pages shall on any pretence be inserted in any volume.

52. When an instrument is executed in the form of an endorsement written across or at the foot or back of any previously registered document as in the case of an assignment of a lease or the transfer of any other interest or of a receipt or discharge acknowledging the receipt of consideration money or the receipt of any principal, interest, annuity, or other periodical payment secured by the registered instrument, such endorsement shall, if presented for registration, be numbered and registered as a separate instrument and a note shall be entered in the register showing that it was written across, or at the foot or back of such previously registered instrument. If the endorsement was made on an unregistered instrument, the instrument as well as the endorsement shall be copied in the register and a note entered below the certificate of registration and above the registering officer's signature to the effect that the endorsement alone was registered.

Registration of receipts, discharges and transfers endorsed upon registered documents, Section 58.

53. The endorsements prescribed in sections 52 and 58 and the certificate prescribed in section 60 shall be written in the registering officer's own hand in the form hereunto appended, or as near thereto as circumstances permit, unless he has been specially authorized by the Inspector-General to use endorsement stamps under rule 54. An executing party shall be required to use the same language in signing the endorsement which he has used in signing the instrument.

Endorsements and certificates. Sections 52, 58, 59 and 60.

If there is not sufficient blank space in the instrument for the endorsements and certificate, they may be entered on a covering slip or rider. In that case, a note to that effect shall be entered on the instrument itself and signed by the registering officer.

When a document occupies more than one sheet of paper, the number of the sheet, the number of the document of which the sheet forms a part,

the seal and signature of the registering officer, shall be endorsed on every sheet.

Endorsement stamps
Sections 5, 52, 58,
59 and 60.

54. The Inspector-General may specially authorize any registering officer to use stamps for making, on documents presented for registration, the endorsements and certificate prescribed by sections 52, 58 and 60. The stamps to be used must be obtained on indent from the Inspector-General's office and must be kept in the personal custody of the registering officer and be kept in a sealed bag when not in use. The endorsements must be impressed on the documents by the registering officer himself, and no one else may, on any account whatever, be allowed to handle them. English names if indexed in the vernacular shall be indexed as they would be written in the vernacular, as Wilson under V., Wright

If there are errors which he has power to rectify under section 68, he shall issue the necessary order. If there are errors which cannot be remedied, he shall nevertheless point them out in order that they may not be repeated. The Registrar shall then forward not later than the 15th of the next following month the Sub-Registrar's index sheets in original to the Inspector-General's office for inspection and such further orders as may be deemed necessary together with a copy of his instructions as also a copy of his own index entries for the past month, accompanied by a memorandum specifying the number of sheets belonging to each office. 14. In a certified copy every figure shall count as a word. If initials or abbreviations are used instead of words, every initial or abbreviation shall count as a word. Thus "A. D, 1866" will be equivalent to six words; "Bounded on the N. E." to five words; and "A. R. Thompson" to three words.

15. No charge shall be made for granting copies of reasons for refusal when given by a Sub-Registrar.

13. The pressure of a supply delivered to any one consumer, other than a tramway company, shall not exceed 250 volts at any two terminals, within reach of one another, and not under the sole control of the licensee, except with the written approval of the Local Government, which shall be given only on the joint application of the consumer and the licensee and subject to such further conditions as the Local Government may prescribe:

Provided that the licensee shall be deemed to have complied with the requirements of this rule so long as the pressure does not exceed the limit laid down in this rule by more than the amount of variation authorized under rule 71.

14. The pressure of a supply delivered to a transforming station, or to a transforming apparatus, on a consumer's premises may exceed 250 volts, but shall not exceed the limits of high-pressure, except with the written approval of the Local Government, which shall be given only on the joint application of the consumer and the licensee, and subject to such further conditions as the Local Government may prescribe.

15. Where the insulating material on any electric supply-line is protected wholly or partly by an external metallic covering, such metallic covering shall be efficiently connected with earth.

16. Every low pressure main shall be tested by the licensee for insulation after having been placed in position, and before it is used for the purposes of supply, the testing pressure being at least double the maximum working pressure; and the licensee shall record the results of the tests of each main or section of a main or distributing main.

17. Suitable means shall be provided by the licensee for the immediate indication and localisation of leakage, and every leakage shall be remedied without delay.

18. (1) Where any portion of an electric supply-line or any support for an electric supply-line is exposed in such a position as to be liable to injury from lightning, the licensee shall adopt efficient means for protecting it against injury.

(2) Lightning arresters shall be capable of supporting successive discharges without attention.

High-pressure and extra high-pressure supply.

19. (1) No high pressure circuit shall be brought into use unless the insulation of every part thereof has withstood the continuous application during one hour of pressure equal to, or exceeding, the maximum pressure to which it is intended to be subjected in use to the following extent, that is to say,—

- (a) in the case of every high-pressure electric supply-line, machine, device or apparatus, 50 per cent. greater than the said maximum pressure, or,

Provided that in any specific instance where, in the opinion of an Electric Inspector appointed under the Act, the circumstances do not admit of it, this rule shall not apply :

Provided also, that the Local Government may in any license, or by order in writing, modify this rule to such extent as it may think fit.

Construction and
erection of supports.

23. (1) Every support of an aerial line shall be of a durable material, firmly erected and, where necessary, properly stayed against forces due to wind pressure, change of direction of the line, or unequal lengths of span.

(2) The factor of safety of the aerial line shall, at the minimum temperature of the locality, be at least four, and the factor of safety of all other parts of the structure at least four under all conditions, the maximum possible wind pressure being taken at 50 lbs. per square foot.

(3) For cylindrical bodies, such as posts and wires, the effective area shall be taken as two-thirds of the total area exposed to pressure.

(4) Every support, if of metal, shall be efficiently connected with earth in so far as the nature of the ground in which the support is fixed makes this practicable.

Height from ground
and distance from
buildings.

24. Subject to the provisions of rules 64 and 65, no conductor of an aerial line shall be at a less height from the ground than 20 feet or within 5 feet measured horizontally or 7 feet measured vertically from any building or erection other than a support for the line, unless it has been brought into a building for the purpose of supply.

Provided that the Local Government may, by order in writing, permit any modification of this rule which it may consider necessary.

One side of street
only to be occupied

25. Except with the written approval of the Local Government and of the telegraph authority, aerial lines shall be carried along only one side of a street.

Service lines from
aerial lines.

26. (1) Aerial service lines shall be led as directly as possible to insulators firmly attached to some portion of the consumer's premises and (unless surrounded or guarded by a suitable metallic guard efficiently connected with earth) at a distance not less than 5 feet therefrom.

(2) Such service lines shall not be accessible to any person without the use of a ladder or other special appliance, and from the point of attachment they shall be enclosed and protected in accordance with rules 42 to 44 as to a licensee's lines on a consumer's premises.

Angle of crossing
street.

27. (1) Where an aerial line, other than a trolley wire for electric traction, crosses a street, the angle between the line and the direction of the street at the place of crossing shall be not less than 60 degrees, and there shall be no joint in any wire at the place of crossing.

(2) Where the width of the street exceeds 80 feet, a support shall be erected by the licensee on each side of it and the space between the supports shall be as short as practicable.

(3) This rule shall not apply to service lines protected with a device, approved by the Local Government, for rendering any line harmless in case it breaks : and where the rule applies, the Local Government may, by order in writing, permit any modification of it which it may consider necessary.

28. (1) Where an aerial line crosses, or is in proximity to, an aerial line Crossing wire belonging to another licensee, or to any telegraph wire not protected with a permanent insulating covering, adequate precautions shall be taken by the licensee against the possibility of his line coming into contact with the other line or wire, or of the other line or wire coming into contact with his line, by breakage or otherwise.

(2) The guarding of aerial lines shall be carried out in such manner as the Local Government, after consultation with the telegraph authority, may, by general or special order, in any case direct.

(3) A licensee shall not commence the supply of energy through any aerial line until it has been guarded and protected, as required by sub-rules (1) and (2), wherever it crosses, or is crossed by, any existing aerial line or telegraph wire.

(4) On receiving notice that a new aerial line or telegraph wire is, or will be, erected across an existing aerial line, the licensee shall arrange to have his line guarded at such place within 15 days of the receipt of the notice, and in such case the actual expense incurred in erecting the guard wires shall be refunded to the licensee by the owner of the new aerial line or telegraph wire.

(5) Where an aerial line crosses, or is liable to be blown on to, a metal roof or other metallic substances, efficient means shall be taken by the licensee to prevent the electrical charging of the same in case of accident ; and there shall be no joint in any such span of an aerial line.

29. (1) Except with the written consent of the Local Government, high-pressure and low-pressure aerial lines shall in no case be carried on the same supports, unless when they cross one another. High pressure and low-pressure aerial lines not allowed on same supports.

(2) Whenever a high-pressure aerial line crosses a low-pressure aerial line, it shall pass above the low-pressure aerial line and in a direction as nearly at right angles as the nature of the case admits, and the provisions of rule 28 shall apply.

High-pressure and
extra high-pressure
aërial lines.

30. The following precautions shall be taken by the licensee with regard to high-pressure and extra high-pressure aërial lines, namely :—

- (a) Arrangements shall be made to prevent any person from climbing up such a support without the use of a ladder or special device.
- (b) Where the high-pressure conductors cross over a public road, railway or canal, a suitable device shall be fitted up to render any wire harmless, if it should break.
- (c) Stay wires on any such support shall be broken electrically below the line wires by the interposition of suitable strain insulators, unless efficiently connected with earth through a suitable earth plate.

Suspending wires.

31. (1) Every high-pressure aërial line, if continuously covered with insulating material, shall be efficiently suspended by means of insulating ligaments to suspending wires, so that the weight of the line may not produce any sensible stress in the direction of its length.

(2) All suspending wires, if of iron or of steel, shall be galvanised.

Maintenance.

32. Every aërial line, including the supports thereof and all the structural parts and electrical appliances and devices belonging thereto or connected therewith, shall be duly and efficiently supervised and maintained by the licensee as regards both electrical and mechanical conditions.

Unused aërial lines
to be removed.

33. The licensee shall not leave an aërial line erected after it has ceased to be used for the supply of energy, unless he intends within a reasonable time again to take it into use.

Electric supply-lines and apparatus other than aërial lines.

Crossing metallic
substances.

34. Where an electric supply-line crosses, or is in proximity to, any metallic substance precautions shall be taken by the licensee against the possibility of the metallic substance becoming charged.

Precautions against
charging.

35. Where isolated lengths of metal conduits, pipes or casings are used for the protection of any electric supply-line at road-crossings or in similar positions, special precautions shall be taken by the licensee to prevent the possibility of any electrical charging thereof.

Precautions in case
of bare underground
conductors.

36. (1) Where the conductors of electric supply-lines placed in any conduit are not continuously covered with insulating material, they shall be secured in position, and no unfixed uninsulated material of a conducting nature shall be contained in the conduit, nor shall the pressure in such conductor be higher than 500 volts

(2) Adequate precautions shall also be taken by the licensee to insure that no accumulation of gas or water shall take place in any part of the conduit

and to prevent any dangerous access of moisture to the conductors or insulators.

(3) The insulators shall be so disposed that they can be readily inspected.

(4) The restriction in sub-rule (1) as to pressure shall not apply where an aerial line is taken into a conduit for the purpose of passing through an embankment or similar obstruction, but in such a case no low-pressure conductor may be laid in the same conduit with a high-pressure or extra high pressure one.

37. Every portion of a high pressure electric supply-line (not being an aerial line) placed above the surface of the ground or in any sub-way not in the sole occupation of the undertakers, shall be completely enclosed either in a tube of highly insulating material embedded in brickwork, masonry, or concrete, or in a strong metal casing efficiently connected with earth. High-pressure electric supply-lines laid above ground.

38. Where a high-pressure electric supply-line is laid beneath the surface of the ground, efficient means shall be taken by the licensee to render it impossible that the surface of the ground or any neighbouring electric supply-line or conductor shall become charged by leakage therefrom. High-pressure electric supply-lines laid under ground.

39. (1) Transforming stations, which are not on a consumer's premises shall be established in suitable places in the sole occupation and charge of the licensee. Transforming stations.

(2) The covers and frames and other metallic parts (other than parts of the electrical circuit) of all high-pressure and extra high-pressure apparatus of every description shall be either efficiently connected with earth, or, if insulated, so placed and arranged that it is impossible for any person to obtain a shock to earth from them.

40. (1) The cover of every street-boxes* and junction pillar shall be so secured that it cannot be opened except by means of a special appliance. Street-boxes and junction pillars.

(2) The covers of all street-boxes and junction pillars containing high-pressure apparatus other than cables shall be connected with strips of metal laid immediately beneath the adjacent roadway, and efficient means shall be taken to render it impossible that the covers or other exposed parts of any such street-box, or any adjacent material forming the surface of the street shall become electrically charged, whether by reason of leakage, defect or otherwise.

(3) Where street-boxes are used as transformer chambers, reasonable means shall be taken by the licensee to prevent, as far as possible, any influx of water either from the adjacent soil or by means of pipes, and, in the case

* See. Read "street-box."

of any such street-box exceeding one cubic yard in capacity, ample provision shall be made, by ventilation or otherwise, for the immediate escape of any gas which may by accident have obtained access to the street-box and for the prevention of danger from sparking.

(4) Every street-box shall be regularly inspected for the presence of gas, and, if any influx or accumulation is discovered, the licensee shall give immediate notice to the authority or company (if any) whose gas mains are laid in the neighbourhood thereof.

Licensees' lines on consumers' premises.

Responsibility of licensee for his conductors on consumer's premises.

41. The licensee shall be responsible that all electric conductors, fittings and apparatus belonging to him, or under his control, which may be upon a consumer's premises, are maintained in a safe condition and in all respects fit for supplying energy.

Main fuses or disconnectors to be provided in locked receptacles.

42. (1) A suitable cut-out shall be inserted in each service line within a consumer's premises (not being the neutral wire of a multiple wire system), as close as possible to the point of entry and contained within a suitable locked or sealed receptacle of fireproof construction throughout, and shall be under the sole control of the licensee, except in cases where the service line is protected by fuses at the point of connection with the distributing main.

(2) If the receptacle is of porcelain or some other substance liable to be easily broken, it shall be suitably protected against injury, and such protection shall also be fireproof.

Service lines on consumer's premises.

43. So much of any service line as is not an aerial line and is placed on a consumer's premises shall be highly insulated and enclosed either in an electrically continuous metallic covering efficiently connected with earth or in a tube of porcelain or earthenware.

Transformers and high-pressure apparatus to be enclosed in masonry or metal.

44. Where the general supply of energy is a high pressure supply and transforming apparatus is installed on a consumer's premises, the whole of the high-pressure service lines, conductors, and apparatus, including the transforming apparatus itself, so far as they are on the consumer's premises, shall be completely enclosed in solid walls or in a strong metal casing efficiently connected with earth, and shall be securely fastened throughout.

Connection to consumers' premises not to be made where leakage would result

45. The licensee shall not connect the wires and fittings on a consumer's premises with his mains unless he is reasonably satisfied that the connection will not cause a leakage from those wires and fittings exceeding one five-thousandth part of maximum supply current to the consumer's premises; and, where the licensee declines to make such a connection, he shall serve upon the consumer a notice stating his reasons for so declining.

46. (1) If the licensee is reasonably satisfied, after making all proper examination by testing or otherwise, that a leakage exists at some part of a circuit of such extent as to be a source of danger, and that such leakage does not exist at any part of a circuit belonging to the licensee, then any person authorized in writing by the licensee in accordance with the provisions of the Act in this behalf, or, on the application of the licensee, an Electric Inspector appointed under the Act may, for the purpose of discovering whether the leakage exists at any part of a circuit within or upon any consumer's premises, after giving the consumer reasonable notice in writing, inspect and test the wires and fittings belonging to the consumer and forming part of the circuit.

(2) Where the licensee obtains the services of an Electric Inspector under this rule, he shall pay such fee as the Local Government may fix in this behalf.

(3) If on testing in manner referred to in sub-rule (1), the person authorized by the licensee or the Electric Inspector as aforesaid discovers a leakage from the consumer's wire exceeding one five-thousandth part of the maximum supply current to the premises, or if the consumer does not give all reasonable facilities for inspection and testing, the licensee may forthwith discontinue the supply of energy to the premises in question, giving immediate notice of the discontinuance to the consumer, and need not recommence the supply until he is reasonably satisfied that the leakage has been stopped.

47. (1) Where a consumer is dissatisfied with the action of a licensee in refusing to give, or in discontinuing, or in not recommending, the supply of energy to his premises, the wires and fittings of such consumer may, on his application and on payment of such fee as the Local Government may fix in this behalf, be tested for the existence of leakage by an Electric Inspector appointed under the Act.

(2) This rule shall be endorsed on every notice given under the provisions of rule 45 or rule 46.

Arc lighting.

48. An isolation switch shall be provided for every arc lamp connected with any high-pressure electric supply-line, and the switch shall be of such pattern and construction as will provide—

- (a) that the lamp can by its means be entirely disconnected from the supply circuit;
- (b) that the switch itself can be safely worked in the dark without special precautions;
- (c) that there shall be no danger of any injurious electrical arcing,

sparking, or heating being caused by the operation of the switch ;
and

- (d) that, where the switch is accessible without the use of a ladder or special appliance, it shall be in a locked metallic receptacle efficiently connected with earth.

AS TO ELECTRIC TRACTION (CONTINUOUS CURRENT).

Continuous current.

49. Every dynamo used as a continuous current generator shall be of such pattern and construction as to be capable of producing a continuous current without appreciable pulsation.

"Line," "return,"
and "trolley wire"

50. (1) One of the two conductors used for transmitting energy from the generator to the motor (hereinafter referred to as a "line") shall in every case be insulated from earth.

(2) The other conductor (hereinafter referred to as a "return") may be insulated throughout, or may be uninsulated in such parts and to such extent as is provided in the following rules.

(3) A suspended aerial line from which energy is transmitted into a car, is hereinafter referred to as a "trolley wire."

Insulation of return.

51. (1) Where any rails on which cars run, or any conductors laid between or within three feet of such rails, form any part of a return, such part may be uninsulated.

(2) All other returns or parts of a return shall be insulated, unless of such sectional area as will ensure compliance with rule 55.

Bonding of return.

52. (1) Where an uninsulated conductor forms any part of a return, it shall be of such section, and the several lengths shall be so connected together, as to ensure compliance with rule 55.

(2) Where an uninsulated conductor is laid between, or within three feet of, the rails, it shall be electrically connected with the rails at distances apart not exceeding 100 feet by means of copper strips having a sectional area of at least one-sixteenth of a square inch, or by other means of equal conductivity.

Return to be
negative and earthed.

53. (1) Where any part of a return is uninsulated, it shall be connected with the negative terminal of the generator, and in such case the negative terminal of the generator shall also be directly connected, through the current indicator hereinafter mentioned, with two separate earth connections, which shall be placed not less than twenty yards apart :

Provided that in lieu of two such earth connections, the licensee may make one connection with a main for water-supply of not less than three inches internal diameter, with the consent of the owner of the main and of the person supplying the water :

Provided, also, that where, from the nature of the soil or for any other reason, the licensee can show, to the satisfaction of an Electric Inspector appointed under the Act, that such earth connections as are required by this sub-rule cannot be constructed and maintained without unreasonable expense, the provisions of this rule shall not apply.

(2) The earth connections required by sub-rule (1) shall be constructed, laid, and maintained so as to secure electrical contact with the general mass of earth, and so that the resistance from one earth connection to the other through the earth shall not exceed two ohms; and a test shall be made by the licensee at least once in every month to ascertain whether this requirement is complied with.

(3) No portion of either earth connection shall be placed within six feet of any pipe, other than a main for water-supply of not less than three inches internal diameter which is metallically connected with the earth connection with the consent of the owner of the main and of the person supplying the water.

(4) Where the generator is at a considerable distance from the tramway, the uninsulated return shall be connected with the negative terminal of the generator by means of an insulated return, and the generator shall have no other connection with the earth; and in such case the end of the insulated return connected with the uninsulated return shall be connected also through a current-indicator with two separate earth connections or, with the necessary consents, with a main for water-supply, or, with the like consents, with both in the manner prescribed in this rule.

(5) If the current-indicator cannot conveniently be placed at the connection of the uninsulated return with the insulated return, this instrument may consist of an indicator at the generating station connected by insulated wires with the terminals of a resistance interposed between the return and the earth connection or connections. The said resistance shall be such that the maximum current laid down in rule 54, sub-rule (1), clause (i), shall produce a difference of potential not exceeding one volt between the terminals. The indicator shall be so constructed as to indicate correctly the current passing through the resistance when connected with the terminal by the insulated wire above-mentioned.

54. (1) Where the return is partly or entirely uninsulated, the licensee shall, in the construction and maintenance of a tramway,— Earth return current.

- (a) so separate uninsulated return from the general mass of earth and from any pipe, metallic structure or substance in the vicinity,
- (b) so connect together the several lengths of the rail,

(c) adopt such means for reducing the difference produced by the current between the potential of the uninsulated return at any one point and the potential of the uninsulated return at any other point, and

(d) so maintain the efficiency of the earth connections specified in the preceding rules,

as to fulfil the following conditions, namely :—

(i) the current passing from the earth connections through the indicator to the generator, or through the resistance to the insulated return, shall not at any time exceed either two amperes per mile of single tramway line or 5 per cent. of the total current output of the station ; and

(ii) the difference of potential between the uninsulated return and any pipe, metallic structure, or substance in the vicinity shall not exceed five volts, when the return is relatively positive, or two volts, when the return is relatively negative.

(2) In order to provide a continuous indication that the condition specified in sub-rule (1), clause (e), is complied with, the licensee shall provide a suitable recording amperemeter, and shall keep it connected during the whole time that the line is charged.

(3) The owner of any pipe, metallic structure or substance in the vicinity of an uninsulated return may, in respect of the same, require the licensee at reasonable times and intervals to ascertain by test in his presence, or in that of his representative, whether the condition specified in sub-rule (1) clause (e) is complied with : and, if such condition as aforesaid is found to be complied with, all reasonable expenses of and incidental to the carrying out of the test shall be borne by the owner, but if otherwise, by the licensee

Difference of
potential on return.

55. (1) Where the return is partly or entirely uninsulated, a continuous record shall be kept by the licensee of the difference of potential during the working of the tramway between the points of the uninsulated return furthest from and nearest to the generating station.

(2) If at any time the difference of potential is found to exceed five volts, the licensee shall thereafter make a daily report to the Local Government, or to such officer as the Local Government may appoint in this behalf, of the result of the previous day's test, and, if at any time it exceeds the limit of seven volts, the licensee shall take immediate steps to reduce it below that limit :

Provided that the Local Government may, in its discretion, relax the provisions of this rule in localities where it may consider it unnecessary strictly to enforce them.

56. Except with the written approval of the Local Government, the line Isolation of sections. wire shall be divided up into sections not exceeding one mile in length, between every two of which there shall be inserted an emergency switch, so enclosed as to be inaccessible to the public.

57. (1) The insulation of the line and of the return when insulated and of all feeders and other conductors, shall be so maintained that the leakage current shall not exceed one-hundredth of an ampere per mile of tramway. ^{Leakage on other than conduit system.}

(2) The leakage current shall be ascertained daily by the licensee before or after the hours of running when the line is fully charged.

(3) If at any time it is found that the leakage current exceeds one-half of an ampere per mile of tramway, the leak shall be localised and removed as soon as practicable, and the running of the cars shall be stopped unless the leak is localised and removed within twenty-four hours :

Provided that this rule shall not apply where both line and return are placed within a conduit.

58. In the construction and working of the cars care shall be taken to provide for as gradual variation of the current as is practicable. ^{Variations in the current.}

59. (1) The licensee shall, so far as may be applicable to his system of working, keep the following records, namely —

61. Every electric main, lead, or connection used in or upon a car shall be of ample size and thoroughly insulated and protected by cut-outs which will operate to break the circuit before the current has risen to an amount likely to cause any injurious heating of the conductors, and the length of every safety fuse in the clear shall be not less than two inches, unless an automatic device is provided for interrupting the arc.
- Conductors on cars.
62. Every electrical conductor fixed upon a car shall be protected wherever it is adjacent to any metal, so as to avoid risk of the metal becoming charged.
- Collector standards.

1. An index in the form prescribed in A of the appendix will be put up with the record of every case on its first institution in each Court, and each paper, as it is filed with the record, will be entered in such index.

¹ Printed Vol. I, p. 519.

2. Every record shall, after its completion and immediately before it is deposited in the record-room, be divided into parts as shown in the table given in B of the appendix, and, to facilitate this division, each paper will, as soon as it is filed with the record, be numbered and marked off in the index as pertaining to one or another of such parts.

3. The parts of records described in the table given in C of the appendix will be retained for the periods respectively specified against them from the date of their completion, provided that in any case the presiding judge or magistrate may, for reasons to be recorded in writing, direct that any of the papers in any one part be transferred to any other part for which a longer period of retention is prescribed; in which case the fact will be noted in the index, and the papers dealt with as if they had belonged from the commencement to the part to which they were so transferred.

4. The Court registers, books and papers, described in the table given in D of the appendix, will be retained for the periods respectively specified against them, reckoning from their respective dates or from the dates at which they close:

(a) Where any document, of which the destruction is ordered by these rules, is, before it has been destroyed, made evidence in any other proceeding the rule regulating its destruction will be the rule applicable to the evidence filed in such proceeding, where the period prescribed by such last-mentioned rule is in excess of the period prescribed by the rule which originally governed its destruction.

5. All records, books and papers, described in the tables given in C and D of the appendix, must be destroyed, without fail, at the expiration of the periods respectively indicated against them.

6. Records, books and papers to be destroyed under rule 5 are to be burnt in the presence of the record-keeper.

12. The fee allowed on the percentage scale for prosecuting or defending a suit is intended to cover all proceedings up to decree; and where a suit is remitted for re-hearing and disposal or for a finding on issues, the proceedings on such order must be regarded as a further proceeding in the trial of the suit, and no further fee can be allowed in respect of such proceedings.

13. In suits under Act IX of 1887 (the Provincial Small Cause Courts Act) where costs are awarded by the Court, and where the certificate prescribed

IV. Loans shall be repayable by equal annual instalments discharging both principal and interest, the time allowed for repayment being fixed by the Collector with reference to the convenience of the borrower and the circumstances of the case, but so as not to exceed the maximum period of 10 years prescribed by section 4(2) of the Law

The time for repayment specified above, shall count from the date of the payment of the loan, or where the loan is paid by instalment, from the date of payment of the last instalment.

In cases of extraordinary calamity, involving destruction of property, the Resident in Mysore may suspend the payment of instalments of interest and principal for such period as he may think necessary, and may remit an amount equal to the interest due for the period of such suspension. He may also in such cases sanction an additional loan not exceeding Rs500 to an individual to whom a loan has already been granted irrespective of the fact that such additional loan may cause the total amount due on account of principal from that individual to exceed Rs1,500.

The time allowed for repayment is liable to revision under rule XIV

Provided that nothing in this rule shall be taken to preclude a borrower from discharging the loan at an earlier period by payment of a larger amount than the annual instalment. The excess so paid shall be credited at once in reduction of principal and the number of future instalments shall, if necessary, be decreased, but no alteration in the amount of subsequent instalment shall be allowed, nor shall postponement of payment of subsequent instalments be permitted

V. The first repayment of the principal and interest shall not be demanded within less than twelve months from the date of disbursement of the first instalment of the loan.

VI. Repayment may be made at the Resident's Treasury, Bangalore, through the Collector.

VII Interest at $7\frac{1}{4}$ per cent. will be charged on all instalments of interest or of principal overdue.

In calculating interest under this rule, a broken period of a month shall be taken as half a month or one month according as it is less or not less than fifteen days, and a rupee* may be taken as half a rupee or one rupee according as it is less or not less than eight annas.

* *Sic.* Read "a fraction of a rupee."

VIII. No loan shall be granted unless the value of the security offered exceeds by at least one-fourth the amount of the loan applied for.

The nature of the security to be required shall be—

(i) the land on which the building is to be erected and the building to be erected thereon ; and

(ii) other lands or buildings, or both, belonging to the applicant.

If the value of the applicant's interest in the lands and buildings aforesaid does not exceed by one-fourth the amount of the loan applied for, further security consisting of lands or buildings or both belonging to other persons willing to become his sureties shall be required.

IX. If at any time the Collector is satisfied that any borrower has failed to perform any of the conditions on which the loan was made, he may proceed to recover forthwith from such person or from any surety of such person, the entire unpaid balance of the loan together with any interest payable thereon and costs, as arrears of land revenue.

X. An application for a loan shall in every case be made in writing to the Collector in Form No. 1 hereto annexed (printed copies of which can be obtained from the Collector's Office free of cost) and may be presented in person or sent by post.

XI. No loan shall be granted without a local enquiry. On receipt of an application the Amildar of the Civil and Military Station or other officer empowered by the Collector in this behalf may be required to make summary enquiry as to the correctness of the entries in the application, and as to the *bona fides* and the solvency of the applicant and the sufficiency of the security offered, and submit a report to the Collector.

XII If after local enquiry and such further investigation as may be deemed necessary, the Collector is satisfied that the loan may be granted, he shall record a decision to the effect that the loan asked for, or a less sum, may be given and then shall at once issue an order granting the loan in Form No. II hereto annexed, which shall be signed by the applicant in token that he understands and agrees to the conditions contained therein. The security bond to be taken in the case of collateral securities shall be in Form No III hereto annexed.

An order rejecting an application for a loan shall be intimated to the applicant by a notice in Form No. IV hereto annexed.

XIII. Loans may, at the discretion of the Collector, be advanced in one or more instalments.

XIV. The Collector may make provision for the proper inspection of works in course of construction

for which loans have been made and for ascertaining and securing that such loans are duly applied to the purpose for which they are made.

All works for which loans are made by instalments shall be inspected and reported upon before each instalment subsequent to the first is paid.

All works shall be inspected and reported on as soon as possible after the date fixed for their completion in the order granting the loan.

If it should then be found that the work has not been carried out in substantial conformity with the proposals made, the Collector may either require immediate repayment of the whole amount advanced with interest at $6\frac{1}{2}$ per cent. and costs, if any, or alter the instalment fixed under Rule IV, so as to ensure repayment of the loan within the period for which it has been granted. In such cases the original loan order shall be cancelled and a fresh loan order issued, the former being recovered from the borrower if possible.

XV. The Collector shall keep a register of loans and repayments in Form No. V hereto annexed and such other accounts and statements as may from time to time be prescribed by the Resident in Mysore.
